Special Statement 10/05/08

The State Peace and Development Council (SPDC) is responsible for safeguarding as well as ensuring the longevity of the lives of the citizens of this country.

Presently, the authorities are hampering and obstructing the delivery of assistance from the international community, including the United Nations. As a result, the number of deaths is growing with each passing day. We, therefore, hold the SPDC responsible for the increasing number of deaths as well as for the diminishing security of lives and property in the country.

Hence, we, the National League for Democracy, which is mandated by the people, once again appeals to the international community, including the United Nations, to make use of all available means immediately to send experts and humanitarian assistance and start undertaking relief and rescue missions in Burma.

Since the United Nations has the responsibility to protect civilians, we urge it to practically come to the aid of the people of Burma.
