ASEAN has potential to physically anchor itself as transportation, information and communication technology, and tourism hub of the region

**Congratulatory Message from Senior General Than Shwe, Chairman of State Peace and Development Council of Union of Myanmar on occasion of 43rd Anniversary of ASEAN Day**

NAY PYI TAW, 8 Aug—Chairman of the State Peace and Development Council of the Union of Myanmar Senior General Than Shwe sent a congratulatory message on the occasion of the 43rd Anniversary of ASEAN Day. The full text of the message is as follows:

In the implementation of the ASEAN Political-Security Community (APSC) Blueprint, the ASEAN Economic Community (AEC) Blueprint and the ASEAN Socio-Cultural Community (ASCC) Blueprint.

The ASEAN Leaders discussed the concept of ASEAN Connectivity and adopted a statement thereon at the 15th ASEAN Summit in October 2009. They observed that, located at the crossroads of an economically vibrant and growing region, ASEAN thus had the potential to physically anchor itself as the Transportation, Information and Communication Technology, and tourism hub of the region. They tasked the High-Level Task Force on ASEAN Connectivity (HLTF-AC) to develop an ASEAN Master Plan on regional connectivity. We are pleased to note that the HLTF-AC is on track for the completion of the Master Plan on ASEAN Connectivity by the 17th ASEAN Summit.

We have learned that the Master Plan will focus on physical connectivity, institutional connectivity and people-to-people connectivity. We note that the theme for this year’s ASEAN Day, “Bridging Markets, Connecting Peoples”, if fully in line with the concept of ASEAN Connectivity. We sincerely hope that the Master Plan would reach a win-win solution to reflect the interest of all ASEAN Member States and strive for balance between regional and national interests.

Four political objectives

- Stability of the State, community peace and tranquility, prevalence of law and order
- National reconciliation
- Emergence of a new enduring State Constitution
- Building of a new modern developed nation in accord with the new State Constitution

Four economic objectives

- Development of agriculture as the base and all-round development of other sectors of the economy as well
- Proper evolution of the market-oriented economic system
- Development of the economy inviting participation in terms of technical know-how and investments from sources inside the country and abroad
- The initiative to shape the national economy must be kept in the hands of the State and the national peoples

Four social objectives

- Uplift of the morale and morality of the entire nation
- Uplift of national prestige and integrity and preservation and safeguarding of cultural heritage and national character
- Uplift of dynamism of patriotic spirit
- Uplift of health, fitness and education standards of the entire nation
Take preventive and preparedness measures against natural disasters

According to the meteorological observations over a couple of days, there remains a low pressure area in the northwest of the Bay of Bengal. Thundershowers may scatter in various regions and isolated rains in Rakhine and Mon States and Ayeyawady and Taninthayi Divisions.

Some regional and neighbouring countries are facing overflows of water at rivers and floods in the lowland areas. Thousands of people lost lives. Wells and lakes in some flooded regions were polluted, and thus there are waterborne diseases problems following floods.

Due to strong monsoon, heavy rains occurred in Myanmar. As the water levels of Ayeyawady and Chindwin rivers may reach the danger levels at towns and villages along them, it is necessary to take preventive and preparedness measures against natural disasters.

All the people are to follow the flood warnings issued by the Department of Meteorology and Hydrology. The people from the towns and villages of floods-prone areas are to constantly watch the rising water levels. They have to constantly check the embankments and gather bags of sand and gravel.

The flood prevention groups and the rescue and health groups are to be formed in the respective towns and villages in time. Moreover, preventive measures are to be taken for maintenance of roads, bridges and communication facilities that may be affected during the floods.

Serious attention is to be paid to natural disasters including floods that may occur at any time. As such, the local authorities, social organizations and local people are to harmoniously join hands in carrying out disaster preventive and preparedness measures in all seasons.

Commander attends launching ceremony of World Breastfeeding Week and Nutrition Week activities

Nav Pyi Taw, 7 Aug—Commander of Nay Pyi Taw Command Maj-Gen Wai Lwin on 5 Aug attended the opening of World Breastfeeding Week and Nutrition Week activities in Kandawmingala Hall of Nay Pyi Taw Pinmana. District and township level departmental officials, members of social organizations and guests attended the ceremony.

The commander made an opening speech and officials presented awards to winners in commemorative competitions.

Six Americans on medical team killed in Afghanistan

KABUL, 7 Aug—Ten members of a medical team, including six Americans, were shot and killed by Taleban as they were returning from providing eye treatment and other health care in remote villages in northern Afghanistan, a spokesman for the team said on Saturday.

Dirk Frans, director of the International Assistance Mission, said one German, one Briton and two Afghans also were part of the team that made the three-week trip to Nuristan province. They drove to the province, left their vehicles and hiked for hours with pack horses over mountainous terrain to reach the Parun valley in the province’s northwest.

Taleban spokesman Zabihullah Mujahid said that they killed the foreigners because they were “spying for the Americans” and “preaching Christianity.”

Frans said the International Assistance Mission, the longest serving nongovernmental organization operating in Afghanistan, is registered as a nonprofit Christian organization but does not proselytize.—INTERNET

Six policemen killed in Iraq’s violence

BAGHDAD, 7 Aug—Six policemen were killed and 12 injured in three attacks in Baghdad and western Iraq late on Friday and early Saturday, an Interior Ministry source said.

Four policemen were killed and ten others wounded in a clash with gunmen which erupted around midnight in Saidiyah neighborhood in southern Baghdad, the source told Xinhua on condition of anonymity.

In a separate incident, gunmen opened fire on a traffic police patrol in the al-Hurriyah neighborhood of Baghdad and said Xinhua on condition of anonymity.

In Iraq’s western Anbar province, Captain Abdul Rahman al-Kubaisi, an Iraqi police officer, was shot dead by gunmen on Saturday morning near his house in the city of Rutba, some 375 km west of Baghdad, a provincial police source told Xinhua on condition of anonymity.

On Friday, the police said that a total of three people were killed and 26 wounded in four roadside bombs across the capital.—Xinhua

Bomb blast kills four Afghan policemen, one civilian in Taleban hub

KABUL, 7 Aug—Four policemen and a civilian were killed on Saturday morning as explosive device planted inside a hand cart went off next to a police vehicle in Nahr-e-Saraj district of Taleban stronghold Helmand province in southern Afghanistan, Interior Ministry said in a statement.

“Taleban suicide attack occurred in the morning rush hour at 09:00 am local time. As a result five persons including four policemen and one innocent civilian were martyred,” the statement said.

It also added that 12 civilians and a policeman were injured in the blast.

No group or individuals have claimed the responsibility for the attack.

However, Taleban militants who have vowed to speed up activities often carry out suicide attacks and roadside bombings which mostly harm civilians.

Afghans visit men injured in an attack on a presidential adviser in Jalalabad, east of Kabul, Afghanistan, Monday, 2 Aug, 2010. Militants attacked the second government official in the east on the same day. The convoy was hit by a remote-controlled bomb hidden in a rickshaw as it was driving through city, police said. —INTERNET

Foreigners fight alongside with Taleban in northern Afghan province

KUNDUZ, 7 Aug—Some 40 foreign fighters have been supporting Taleban militants in Afghanistan’s northern Kunduz province, provincial deputy police chief Abdul Rahman Haqtash said on Saturday.

While showing three foreign fighters to journalists, he said they have been fighting under Uzbek extremist commander Tahir Yaldash.

“They are from Tajikistan and they received one-year training in Pakistan’s tribal area of Miran Shah bordering Afghanistan last year,” Haqtash told a news conference here.

They were arrested along with their Afghan comrade Abdul Sattar this morning and arms and ammunition in their possession were seized, he added.

“Up to 40 foreign fighters from Arab, Chechen, Tajikistan and other central Asian states have been fighting alongside with Taleban militants in Kunduz province,” Haqtash said.

A relatively peaceful province in northern Afghanistan, Kunduz has seen increasing Taleban-led insurgency since beginning of this year.

Afghans gather at the scene of an attack on a presidential adviser in Jalalabad, east of Kabul, Afghanistan, Monday, 2 Aug, 2010. China’s Western Mining Co reports tenfold profit surge in 1H

BEIJING, 7 Aug—Western Mining Co., China’s second-largest maker of lead concentrate, said on Thursday that profits in the first half of 2010 jumped 1,175 percent from 2009. The company said in a statement filed with the Shanghai Stock Exchange.

Western Mining Co. attributed the strong growth to the increase in trade revenues, which surged by 2.5 billion yuan in the first six months, a rise of 119 percent from one year earlier.

Fannie Mae posts smallest quarterly loss in three years

WASHINGTON, 7 Aug—US mortgage giant Fannie Mae on Thursday reported the smallest quarterly loss in three years, while asking for another 1.5 billion dollars in federal aid. Fannie Mae Chief Executive Mike Williams attributed the improvements in its financial results to the conservative approach the company adopted recently.

China’s drug watchdog to control the use of 4-MMC

BEIJING, 7 Aug—China’s drug watchdog, the State Food and Drug Administration (SFDA), announced on Thursday that 4-methylmethcathinone (4-MMC) will be listed as the a class one psychotropic drug substance beginning on 1 September, 2010. The SFDA said that no companies or individuals are permitted to be involved in 4-MMC related research or business without official permission.

Otter Tail electric bills rise with wind power

BISMARCK, 7 Aug—Otter Tail Power Co.’s North Dakota customers will see higher electric bills as the utility adds more wind power to its energy sources, state regulators say. Beginning 1 Sept, a separate charge assessed to ratepayers to pay for Otter Tail wind energy projects will increase the monthly bill by almost $1.40 for a residential customer who uses 750 kilowatt-hours of electricity, state Public Service Commission filings say.

For that customer, the wind energy charge would rise from $2.76 monthly to $4.13, an increase of almost 50 percent. The “renewable energy rider” is listed separately on customers’ bills. Commissioner Tony Clark said the charge is intended to allow Otter Tail Power to begin recouping development costs for wind projects. But it does have its drawbacks, Clark said.

Travelling by car contributes more to global warming

LOS ANGELES, 7 Aug—Travelling by car increases global temperatures more than by plane, but only in the long run according to new findings released by the American Chemical Society on Wednesday.

The study, published in the August issue of Environmental Science & Technology, said that in the long run, the global temperature increase from a car trip will be on average higher than from a plane journey for the same distance.

“Car travel emits more carbon dioxide than air travel per passenger mile. As carbon dioxide remains in the atmosphere longer than the other gases, cars have a more harmful impact on climate change in the long term,” said Kleefeld from the International Institute for Applied System in Austria.

However, in the short run, travelling by air has a larger adverse impact on climate because airplanes only affect short-lived warming processes at high altitudes.

In the first years after the journey, air travel increases global temperatures four times more than car travel. Passenger trains and buses cause four to five times less impact than automobile travel for every mile a passenger travels, according to the study.—MNA/Xinhua

A Pygmy Marmoset (Callithrix pygmaea) is seen at a primate rescue and rehabilitation center near Santiago on 3 August, 2010. The Pygmy Marmoset, known as the world’s smallest monkey and under danger of extinction, was confiscated after being found inside the clothes of a Peruvian citizen during a highway police check at the northern city of Antofagasta, some 1367 km (849 miles) of Santiago.

“Otter Tail electric bills rise with wind power”

“Makes wind perhaps look a little boutique, or that we’re treating it a little different,” he said. “It’s certainly not intended to be that way.”

Fergus Falls, Minn.-based Otter Tail Power has about 57,000 North Dakota electric customers. It serves the cities of Wahpeton, Devils Lake and Jamestown, as well as a number of rural communities.

About 18 percent of the utility’s electricity comes from wind turbines, including power that Otter Tail buys from other sources, company spokeswoman Chris King said on Thursday. Almost three-quarters of its power is generated by coal-fired plants.

Otter Tail owns part of wind energy projects that were recently built near Langdon, in North Dakota’s northeast corner, and Lake Ashtabula, near Valley City in Barnes County.—INTERNET

Chinese shares close lower at midday Thursday

BEIJING, 7 Aug—Chinese equities fell modestly at midday Thursday with the benchmark Shanghai Composite Index losing 15.72 points, or 0.6 percent, to finish the morning session at 2,622.81.

The Shenzhen Component Index weakened 0.72 percent to end at 10,792.28 at midday.—Xinhua

Calls to amend archaic heat law

BEIJING, 7 Aug—Labor experts have called for an amendment in law and more effective measures to protect the rights of laborers who work in high temperatures.

The prolonged extreme weather has baked many regions in the country since July, with the Inner Mongolia autonomous region, Shandong and Shaanxi provinces and Chongqing municipality reporting the highest number of weather-related deaths.

In Ji’nan, Shandong province, eight workers have died from sunstroke in the past week. Most of the victims were street cleaners and migrant construction workers.

The recent deaths have prompted experts to urge the government to ensure the legal rights of workers who are exposed to the unbearable heat, said Yang Yansui, a professor at the School of Public Policy and Management at Tsinghua University.

China’s exclusive national law on sunstroke prevention, which mainly stipulates ways to cool down high temperatures at some specific workplaces, such as metallurgical mills, was put into effect in 1960.

The archaic law, which has not been amended in five decades, does not stipulate days of extreme heat when workers can stay off duty.

“The law is like a dead letter. There are big loopholes in the legal protection of workers, especially those who toil outdoors,” Yang said.

Although some State and local regulations have been introduced in the past years with an aim to better guarantee workers’ rights in scorching temperatures, they have not been implemented properly, Yang said.—Xinhua

Solar-powered robot cars on Silk Road to oriental Expo

BEIJING, 7 Aug—Two driverless electric vehicles have begun an epic 13,000-km journey from Italy to Expo 2010 Shanghai along the Silk Road.

The vehicles, developed by the Artificial Vision and Intelligent Systems Laboratory (VisLab) at Parma University in Italy, started their journey on 26 July and are expected to arrive in Shanghai around 28 Oct, just days before the end of the Expo.

The European Research Council has funded the project, which hopes to demonstrate the possibility of transferring goods between continents using new-energy vehicles and without a human in the driver’s seat.

The long journey will assess the performance of various technologies, including lane, vehicle and pedestrian detections, terrain and slope estimation, off-road sensors, and trajectory planning.

These technologies will one day be installed in ordinary vehicles, said Alberto Broggi, director of the project, at a press conference in Milan before the vehicles’ departure. He said the Expo prompted him to choose Shanghai as the final destination of the test.

“We want to hit the center of the world to show our technologies,” he said. “And we thought, why not go there by driverless car?”

He said since the next edition of the World Expo will be held in Milan in 2015, his team wanted to create a bridge to connect with Shanghai.—Xinhua

China says to continue supporting Ethiopia’s health sector

ADDIS ABABA, 7 Aug—Chinese Ambassador to Ethiopia Gu Xiaojie on Thursday said the Chinese government is keen to enhance the development cooperation with Ethiopia and China would continue assisting Ethiopia in the health sector.

The ambassador, along with Kebede Worku, Ethiopian state minister of Health and other officials, visited the construction project of Timnas-Beijing Hospital which is being undertaken by a Chinese company with the aid from the Chinese government.

Speaking on the occasion, Gu said that China would continue supporting Ethiopia in the health sector. The ambassador said that the project is one of Chinese development commitments in light of the China -Africa Cooperation. “The Chinese government attaches great importance to the successful implementation of the project because it is a symbol for the good cooperation between the two countries,” he said. “The project is very impressive and the progress is very good,” said Kebede. The state minister said the project is a testimony for the good relations between Ethiopia and China.—Xinhua

Ukraine postpones delivery of Taurus-II launch vehicle’s first stage to US

KIEV, 7 Aug—Ukraine’s state owned company “Yuzhmash” based in eastern city Dnipropetrovsk postponed the delivery of the basic part of the Taurus-II launch vehicle’s first stage to a US company, the Ukrainian company said in a statement on Tuesday.

“For some technical reasons, the delivery date has been put off to September-October,” the statement said. The delivery was reportedly scheduled for August.

The two-stage launch vehicle is designed to transport loads of up to five tons into low orbit.

In 2008, Ukraine’s companies “Yuzhnynoe” and “Yuzhmash” signed a long-term contract with US Orbital Sciences Corp on cooperation in producing Taurus-II rocket till 2019.

According to the document, the Ukrainian side is responsible for designing and producing the first stage of the launch vehicle, the US side for the second stage, ground complex and assembly. The Taurus-II program is funded by NASA.—Internet
Indonesia not to block BlackBerry services

JAKARTA, 7 Aug — The Indonesian Government will not follow steps taken by Saudi Arabia and United Arab Emirates (UAE) to block several services provided by Canada-based global cellular phone communication system BlackBerry, an official said here on Thursday.

“The government has yet to see the negative impact of BlackBerry service in the country,” said Gatot S. Dewobroto, head of Information Center and Public Relations at the Information and Communication (Kominfo) Ministry. Gatot said policies to use or not using such services provided by BlackBerry were purely internal affairs of each respective governments, the Kompas.com reported. Indonesia sees increasing BlackBerry customers with the last data recorded last year reached around 400,000. The two Middle East countries planned to block the BlackBerry’s browser, e-mail and messenger services for security and sovereignty reasons. The service blockade policy on BlackBerry’s essential service will take into force on Friday in Saudi Arabia, meanwhile UAE will apply the block in October this year.— MNA/Xinhua

US, Vietnam in civilian nuclear talks

WASHINGTON, 7 Aug— The United States and Vietnam are negotiating a civilian atomic agreement that would allow Washington to share nuclear fuel and technology with Hanoi, a State Department spokesman said on Thursday.

State Department spokesman P.J. Crowley said the talks with Vietnam follow similar bilateral pacts Washington struck with India in 2005 and with the United Arab Emirates last year.

Washington hopes Vietnam and any other future civil nuclear partner follows the example set by last year’s agreement with the UAE, which agreed to forgo enriching its own uranium and buy all its nuclear fuel on the international market, he said. “We certainly would encourage countries to make the same decision that the UAE has made,” said Crowley.

“At the same time, not every country is not going to make that decision,” he said, adding that Vietnam has the right to enrich uranium for energy as a signatory to the Nuclear Nonproliferation Treaty.

“That is a decision for them to make. It’s not a decision for the United States to make,” Crowley said.

MNA/Reuters

Thailand, China reinforce education ties

BANGKOK, 7 Aug— Thailand’s Education Minister Chinnawon Boonyakiat and China’s Education Minister Yuan Guiren on Wednesday signed a bilateral agreement to certify education and academic degrees in both countries, the Kom Chad Luek online reported.

This bilateral agreement is aimed to create a mechanism, which will facilitate academic exchange programmes between the two countries in the future.

In light of the bilateral agreement, academic degrees and qualifications from any universities or institutes in both countries will be certified by the Chinese and Thai Government.

Prior to the new agreement, Thailand and China in the past conducted a three-year trial for the educational exchange programme between the two countries.

“But, under the new bilateral agreement both countries do not specify the cooperation’s period as the agreement can be revoked when either Thailand or China wants to amend its details,” the Thai Education Minister explained.

Russian Air Force’s jet crashes, pilots survive

MOSCOW, 7 Aug— A combat-training Sukhoi Su-25 plane of Russian Air Force crashed in the Trans-Baikal Territory on Friday, the Air Force spokesman Vladimir Drik said.

The crew ejected and survived, ITAR-TASS news agency quoted Drik as saying. The plane was flying from the Strey airfield to the Domna airfield when it crashed. There was neither loss of life, nor destruction on the ground, and the plane did not carry any weapons, the spokesman said. Experts of the Defence Ministry and the Air Force have launched investigation, he added.— MNA/Xinhua

UAE agency says attack caused damage to Japan tanker

DUBAI, 7 Aug— Investigators probing a blast on a Japanese supertanker near the Strait of Hormuz last week found remains of homemade explosives and have blamed the incident on a “terrorist attack”, the United Arab Emirates state news agency said on Friday.

The crew of the 333-metre-long M.Star reported an explosion shortly after midnight last Wednesday, injuring one seaman but causing no oil spill or disruption to shipping in the strategic waterway.

“A examination carried out by specialized teams had confirmed that the tanker had been the subject of terrorism attack,” the news agency WAM said, quoting an unidentified Coast Guard source.

“UAE explosives experts who collected and examined samples found a dent on the starboard side above the water line and remains of home-made explosives on the hull”, the source said. The incident provoked several theories about the cause, ranging from a freak wave to a collision with a US nuclear submarine. Two days ago a militant group linked to al-Qaeda claimed responsibility for the incident.— MNA/Reuters

The Association of Southeast Asian Nations (ASEAN) was established on 8 August 1967 with ASEAN Declaration (Bangkok Declaration) in Bangkok by the five original Member countries, namely, Indonesia, Malaysia, the Philippines, Singapore and Thailand. Brunei joined on 8 January 1984, Vietnam on 28 July 1995, Laos and Myanmar on 23 July 1997, and Cambodia on 30 April 1999.

Although Southeast Asia has diverse administrative, economic and political systems and religions as well, countries in the region have established ASEAN. Therefore, ASEAN that is made up of 10 Southeast Asian countries, is mindful of the existence of mutual interests and interdependence among the peoples and Member States of ASEAN which are bound by geography, common objectives and shared destiny.

ASEAN leaders are convinced of the need to strengthen existing bonds of regional solidarity to realize an ASEAN Community that is politically cohesive, economically integrated and socially responsible in order to effectively respond to current and future challenges and opportunities.

With such conviction, ASEAN leaders are committed to intensifying community building through enhanced regional cooperation and integration, in particular by establishing an ASEAN Community comprising the ASEAN Security Community, the ASEAN Economic Community and the ASEAN Socio-Cultural Community, as provided for in the Bali Declaration of ASEAN Concord II ific at 9th ASEAN Summit in Bali, Indonesia on 7 October 2003. Inspired by One Vision, One Identity and One Caring and Sharing Community, ASEAN leaders are striving for the unity.

ASEAN Charter

At the 11th ASEAN Summit held in Kuala Lumpur, Malaysia in December 2009, the Heads of State/Government of the Member States of ASEAN declared Kuala Lumpur Declaration to prepare an ASEAN Charter as there was no fundamental rule for the association and they tasked Eminent Persons Group (EPG) and High Level Task Force (HLTF) from ASEAN Member States to prepare the draft ASEAN Charter.

On 20th November 2007, the ASEAN Charter was signed by ASEAN Leaders including Myanmar at the 13th ASEAN Summit which was held in Singapore. Myanmar ratified ASEAN Charter as a Seventh State on 21st July 2008. The ASEAN Charter entered into force on 15th December 2008 after all ASEAN Member States had ratified it.

ASEAN Member States are endeavoring to realize an ASEAN Community by 2015 which includes ASEAN Political-Security Community (APSC), ASEAN Economic Community (AEC) and ASEAN Socio-Cultural Community (ASCC) as the three main pillars in accordance with the ASEAN Charter.

ASEAN Political-Security Community (APSC)

The APSC aims to ensure that the people and Member States of ASEAN live in peace with one another and with the world at large a just, democratic and harmonious environment.

To achieve this, the APSC will promote political development in adherence to the principles of democracy, the rule of law and good governance, respect for, promotion and protection of human rights and fundamental freedoms as inscribed in the ASEAN Charter. It also subscribes to a comprehensive approach to security.

At the same time, the APSC seeks to strengthen the mutually beneficial relations between ASEAN and its Dialogue Partners and friends.

The APSC thus envisages the following key characteristics: (a) rules-based Community of shared values and norms; (b) a cohesive, peaceful, stable and resilient region with shared responsibility for comprehensive security; and (c) a dynamic and outward-looking region in an increasingly integrated and outward-looking region in an increasingly integrated and interdependent world.

The Blueprint towards establishing the APSC was adopted by the ASEAN Leaders at the 14th ASEAN Summit which was held in Hua Hin, Thailand on 13-18 December 2008.

ASEAN Economic Community (AEC)

The AEC aims to transform ASEAN into a stable, prosperous, and highly competitive region with equitable economic development, and reduced poverty and socio-economic disparities.

Specifically, it comprises four key pillars: (a) a single market and production base; (b) a highly competitive economic region; (c) a region of equitable economic development; and (d) a region fully integrated into the global economy.

To realize the AEC, ASEAN Leaders signed the Declaration on the AEC Blueprint at the 13th ASEAN Summit which was held in Singapore on (18-22) November 2007. The Blueprint serves as a master plan towards achieving an AEC by 2015 by identifying economic integration measures, and targets and timelines for their implementation. To ensure that the targets can be achieved by 2015, a scorecard system to track progress and an AEC communications plan to engage all stakeholders have been put in place.

ASEAN Socio-Cultural Community (ASCC)

The ASCC aims to contribute to realizing an ASEAN Community that is people-centred and socially responsible with a view to achieving enduring solidarity and unity among the peoples and Member States of ASEAN. It seeks to forge a common identity and build a caring and sharing society which is inclusive and where the well-being, livelihood, and welfare of the peoples are enhanced;

To achieve this, the ASCC will implement cooperation activities that are people-oriented and environmentally friendly and geared towards the promotion of sustainable development. It will also contribute to building a strong foundation for greater understanding, good neighbourhood and a shared sense of responsibility.

The ASCC envisages the following characteristics: (a) human development; (b) social welfare and protection; (c) social justice and rights; (d) ensuring environmental sustainability; (e) building the ASEAN identity; and (f) narrowing the development gap.

The ASCC Blueprint was adopted by the ASEAN Leaders at the 14th ASEAN Summit. In the ASCC, peoples are truly at the centre-stage of ASEAN community building.

Important Treaties and Agreements

Bangkok Declaration

The Association of Southeast Asian Nations (ASEAN) was established on 8 August 1967 with ASEAN Declaration (Bangkok Declaration) in Bangkok by the five original Member countries, namely, Indonesia, Malaysia, the Philippines, Singapore and Thailand.

Bali Agreement (Declaration of ASEAN Concord)

Bali Concord is the agreement laid down by the ASEAN leaders on 24 February 1976 in Bali, Indonesia. At first, it has been noted as Declaration of ASEAN Concord or Bali Concord. However when Bali Concord II was signed in 2003, the previous agreement was called as Bali Concord I. This Agreement sets the frame work for ASEAN cooperation which included politics, economic, social and culture, information, security strengthening ASEAN mechanism.

Treaty of Amity and Cooperation in Southeast Asia

The Treaty of Amity and Cooperation in Southeast Asia (TAC) was signed by the original Member States of ASEAN in 1976. The First Protocol Amending and the Second Protocol Amending were made in 1987 and 1988 respectively. Myanmar signed the accession to TAC at the 28th ASEAN Ministerial Meeting, Brunei in 1995. Moreover China, Russia, India, Australia, New Zealand, Japan and Korea also signed the accession to TAC. French and Timor-Leste are accession to TAC in Cebu Summit in January 2007, Bangladesh and Sri Lanka are signed the accession to TAC at the 40th ASEAN Ministerial Meeting on July 2007 in Manila, the Philippines respectively. The Democratic People’s Republic of Korea in July 2008, the United States of America in July 2009 and Turkey and Canada signed the treaty in July 2010.

The purpose of this Treaty is to promote perpetual peace, everlasting amity and cooperation among their peoples which would contribute to their strengthening, solidarity and closer relationship;

— Mutual respect for the independence, sovereignty, equality, territorial integrity and national identity of all nations;
— The right of every State to lead its national development gap.
— Non-interference in the internal affairs of one another;
— Settlement of differences or disputes by peaceful means;
— Renunciation of the threat or use of force;
— Effective cooperation among themselves.

(To be continued)
Inlay Lake, a natural heritage of the nation ...

Command Maj-Gen Yar Pyae gave an account of ongoing tasks for maintenance of the lake for its durability and ensuring regular flow of currents, and follow-up plans.

Director U Tin Aye of Shan State (South) Forest Department and Director U Win Kyi of Shan State (South) Irrigation Department reported on work progress for sustainability of the lake.

Ministers U Htay Oo, U Thein Aung and U Tin Naing Thein and Deputy Minister U Aye Myint Kyu reported on tasks under way for maintenance and greening of the lake and future tasks.

In his speech, the Prime Minister said that due to global warming and climate changes, many countries encountered natural disasters such as drought, floods, and earthquake, and so did Myanmar to an extent. Owing to climate changes, environmental degradation and human activities for years, the lake is slowly receding. In reality, Inlay Lake is a natural heritage of the nation as well as a landmark of Shan State. Moreover, it contributes considerably towards the socio-economic life of local people and generation of hydropower.

Departments concerned are to lay down work plans for prevention of silting up, improvement of the natural ecology, and greening of the lake. In the process, he underlined maintenance of the watershed areas, reforestation of barren areas, dredging of the lake and cleaning of floating islands, duckweed and water hyacinth, and replacing slash and burn with highland cultivation.

In conserving the environment through reforestation, priority is to be given to perennial trees and it is required to encourage emergence of private-run perennial crop plantations.

Stepping up tasks for greening the lake makes contribution towards environmental conservation and it also means maintenance of one of the State’s natural heritages. In conclusion, he called for sustainability of the lake through State’s assistance and (See page 9)
Inlay Lake, a natural heritage of the nation...

(from page 8)

cooperation of entrepreneurs and local people.

The Prime Minister viewed tasks for maintenance of the retaining wall of Inlay PhaungdawU Hill. Officials reported on work progress, and in response the Prime Minister gave instructions on tasks.

On arrival at Myasekkya Weaving Workshop in Innpawkhon, the Prime Minister viewed the process of making lotus scarves and robes from lotus trunks, along with traditional silk and cotton clothes. He observed the products at the workshop.

The Prime Minister and party arrived at Taunggyi in the afternoon.

Inlay, a lake in Nyaungshwe Township, Shan State (South), stands at an altitude of about 2950 feet. The freshwater lake is one of major tourist destinations in Myanmar.

In 2008, the area of the lake was about 40 square miles. However, this year, the area was reduced to only 27 square miles due to record heat. And its length was reduced from 36 to 11 miles, and its width, from eight to four miles.

Locals are therefore to maintain the natural lake hand in hand with the government for its sustainability, and adding to the natural beauty of Inlay region.—MNA

YANGON, 7 Aug—Lt-Gen Myint Swe of the Ministry of Defence this morning attended the workshop on promotion of Myanmar beans and pulses, maize and sesame cultivation and sales organized by Myanmar Beans and Pulses and Sesame Merchants Association at the hall of Union of Myanmar Federation of Chambers of Commerce and Industry in Lanmadaw Township.

Also present at the workshop were Chairman of Yangon Division Peace and Development Council Commander of Yangon Command Maj-Gen Win Myint, the Deputy Minister for Commerce, the president of UMFFCI and CEC members, the chairman of MBPSMA and executives, members, officials and resource persons. First, Lt-Gen Myint Swe delivered an address. The deputy minister and officials gave necessary instructions. Lt-Gen Myint Swe and party viewed sample beans and pulses and browsed the documentary photos of beans and pulses companies.—MNA

Contract for coal signed

Nay Pyi Taw, 7 Aug — Myanmar CNMC Nickel Co Ltd, working in partnership with No. 3 Mining Enterprise of Ministry of Mines at Tagaung Hill Nickel Mine on a profit-sharing basis, inked a deal with Hoo Hn Thi Co Ltd to buy coal at the Presidential Suite of Myat Tawin Hotel here this afternoon. U Win Htein, Managing Director of the No. 3 Mining Enterprise, extended greetings at the signing ceremony in which Managing Director of Myanmar CNMC Nickel Co Ltd Mr Wang Xlawei and MD U Htin Lin Kyaw of Hoo Hn Thi Co Ltd signed the contract and exchanged documents.—MNA

Blast kills two, wounds 4 in Myawady, Kayin State

Nay Pyi Taw, 7 Aug—A motorbike carrying two men exploded near night market-stands in No. 4 Ward, Myawady, Kayin State about 8.25 pm yesterday, killing the two men on the spot and wounding one man and three women near the scene. According to primary investigations, some kind of explosive carried on the motorbike caused the blast and authorities concerned are investigating into the case.—MNA
Toshiba launches new products

YANGON, 7 Aug—Toshiba Singapore Pte Ltd and Lucky Bird Trading Co Ltd organized a reception to mark the 25th anniversary of Toshiba Note- book PC along with introduction of new model notebooks at Parkroyal Hotel here yesterday evening.

Toshiba, one of the top five brands in notebooks market has launched three new models, Libretto W 110, Portege R 700, and Portege T 200. Other models already on market are Toshiba Satellite L 640, Toshiba Satellite L 655 and Toshiba Satellite L 645.

Customers may visit Lucky Bird show- rooms at No. 355, Theinbyu Street, Mングa Taungnyunt Township, here, Ph: 01-248167, 379875 and 399011, at No. 5, 26th Street, between 78th and 79th Street, Mandalay, Ph: 02-21527 and at Northwest Corner, Thabyeigon Market, Nay Pyi Taw, Ph: 067-414113.

New motor road under…

(from page 16)

In accord with the guidance of the Head of State, PyinOoLwin District Public Works on 2 May 2010 surveyed the alignment for the P y i n O o L w i n – M o g o k – K y a u k k m e l a y – Yadananteingyi-Pintaung-Peintin-Monglon-Mogok route for construction of PyinOoLwin-Mogok motor road.

In the past, there was no direct motor road from PyinOoLwin to Mogok, and PyinOoLwin was linked with Mogok along 160 miles long route passing Mandalay, Madaya, Singu and Thabeikkyin. On completion, the new motor road will be 97 miles and seven furlongs long, which is 62 miles and one furlong shorter than the old route.

At present, a new motor road will link PyinOoLwin of over 100 years old and ruby land Mogok of over 700 years old.

We the news crew observed progress of PyinOoLwin-Yenge-Mogyopyit-Nyaungyunt section being constructed by PyinOoLwin District Public Works and Nyaungyunt-Medaw-Naungppm-Kyaunkmelmay road section by Ayeya Shwe Wun Company.

In an interview, Daw Aye Aye Maw, Senior Engineer of PyinOoLwin District Public Works, said that the road construction in PyinOoLwin is being built by PyinOoLwin District Public Works and herself under supervision of one Chief Engineer of Public Works (Head Office) and Mandalay Division Superintendent Engineer U Soe Aung, the road section of Kyaukmye District by Deputy Superintendent Engineer U Kyaw Wai of Road Special Group No. 1 and party and the section of Mogok by Assistant Engineer Daw Nu Yin Min and those from 10 companies. Before surveying the alignment, the area had inter-village roads including 8 miles and seven furlongs long tarred road, 37 miles and two furlongs long hard road, 39 miles and six furlongs long gravel road and 39 miles and six furlongs long walkways and cart tracks. The route from Lonkham to Legyi was done with kasa grill, and some ground works were completed with 34 feet wide earth road.

On arrival at Legyi Village, we saw progress of Namhpan Creek Bridge being built by Directorate of Military Engineers. The preliminary engineering works had been completed recently, and minibored pile and pile caps were under construction.

We had an interview with AE Daw Nu Yin Min who was supervising the tasks of construction companies on Mogok bank. She explained that Mogok Township Public Works is to construct 12 feet wide Mogok-Monglon old motor road with the length of 14 miles to 34 feet wide one. Sein Kaung Yadana Co is to construct 10 miles long road section and Panthee Co, four miles long section, totaling 14 miles from Mogok to Legyi Village. They have experience in constructing the roads. Sein Kaung Yadana Co started its tasks on 27 June and Panthee Co on 10 July. They do not suspend their works even in the rainy season, she said.

The 125 miles and one furlong long Pyay-Paukkang-Toungoo road, the 96 miles long Pathein-Thalakkha-Mustwin road and the 20 miles and three furlongs long Nay Pyi Taw Pyinmana-Pintaung (Kinthha-Koegway) road built by Public Works were inaugurated in recent months. A total of 15 roads with the length of 1815 miles and two furlongs are under construction.

On completion, PyinOoLwin-Mogok new road will help develop over 20 villages along its route. It is because arrangements have been made to reclaim over 100,000 acres of farmlands to grow paddy, maize, beans, pine apple, strawberry, tea, avocado, djenkol bean, damson, coffee, orange and others along both sides of the new road. The direct motor road to link PyinOoLwin hill station and Mogok ruby land will emerge in the near future thanks to concerted efforts of engineers and workers of Public Works and private construction companies.

Translation: TTA Kyenon: 5-8-2010

Profile of 160 feet long Namhpan Creek Bridge Project

Location: Legyi Village, Mogok Town- ship, Mogok-PyinOoLwin Road
Type of bridge: Bailey suspension bridge
Withstanding: 60-ton loads
Length: 160 feet long with three spans (60+60+40 feet)
Width: 12 feet wide motor way
Type of foundation: 0-8 minibored pile foundation
Clearance (free boat): 156 feet wide and three feet high
Start of project: 25-6-2010
Project duration: within six months.

Special Refresher Course No. 18/2010 for police officers opened

YANGON, 7 Aug—The opening ceremony of Special Refresher Course No. 18/2010 for police officers under the Ministry of Home Affairs was held at Nawarat Hall of Central Institute of Civil Service (Phauanggyi), Hlego Town- ship here today with an address by Minister for Home Affairs and for Immigration and Population U Maung Oo. Members of Civil Service Selection and Training Board U Hla Myint Oo and U Win Aung, responsible persons from the Ministry of Home Affairs, the rector of CICS (Phauanggyi) and the pro- rectors, departmental heads, instructors and trainees were present at the ceremony.

The four-week course is being attended by 212 officer and trainees.

President Dmitry Medvedev on Wednesday, at the meeting of the National Security Council chaired by Interior Minister, Rashid Nurgaliyev.

Medvedev said that police stations and other law enforcement infrastructure must be under steadfast surveillance.

“By no means you may allow anarchy as a result of severe accidents and tragedies. You must not let the situation go out of local authorities’ control,” Medvedev said. He stressed that the principal responsibility for keeping the situation under control lies with the Interior Ministry.

“... you should not allow anarchy to spread. You should not let local authorities’ control be lost.”

The President ordered the Interior Ministry not to let anarchy spread in the areas affected by the fires.

Workers use nets to scoop small globs of oil from the water off of Rigoleto Harbor restaurant and lounge as oil residue washes in from the Deepwater Horizon oil spill in the Gulf of Mexico recently in Greens Ditch, Louisiana.

**Canada judge slams US in terrorism extradition case**

**Vancouver, 7 Aug**—A judge refused on Wednesday to extradite a Canadian man wanted on US terrorism charges and whose brother is detained at Guantanamo, saying the United States violated his rights.

The judge ruled Abdullah Khadr’s rights, including access to Canadian diplomatic counsel, were violated after he was detained in 2004 by Pakistani intelligence officials, acting on a US offer of a 500,000 Canadian dollars bounty.

“In this case, the sum of the human rights violations suffered by Khadr is both shocking and unjustifiable,” Ontario Superior Court Justice Christopher Speyer ruled in Toronto.

Khadr was held secretly in Pakistan for 14 months but allowed to return to Canada in 2005. Canada later arrested him at the request of the United States, which accuses him of supplying weapons to al-Qaeda in Pakistan.

**Russia’s Security Council discusses wildfires**

**Moscow, 7 Aug**—Wildfires raging in 17 Russian regions became the only topic discussed during a meeting of the national Security Council chaired by President Dmitry Medvedev on Wednesday, the RIA Novosti news agency reported.

The President ordered the Interior Ministry not to let anarchy spread in the areas affected by the fires.

“No means you may allow anarchy as a result of severe accidents and tragedies. You must not let the situation go out of local authorities’ control,” Medvedev said. He stressed that the principal responsibility for keeping the situation under control lies with the Interior Ministry.

“I would say you should not allow anarchy to spread. You should not let local authorities’ control be lost.”

The President ordered the Interior Ministry not to let anarchy spread in the areas affected by the fires.

**Four dead, four missing in Indonesia’s volcano eruption**

**Jakarta, 7 Aug**—Four locals living around Karangetang volcano in Sitaro islands in Indonesia’s North Sulawesi province were reportedly missing following an eruption of the volcano earlier Friday morning, an official said on Friday. Head of Social Department at North Sulawesi provincial office Recky Tumanduk said that those missing persons were presumably death, adding that the rescue team has found four dead bodies following the eruption.

“Those four dead victims were already evacuated by teams engaged by local administrator. The eviction had been reported to the governor,” Recky was quoted by the state’s official news service.

**US attends Hiroshima bombing ceremony for first time**

**Hirosima, 7 Aug**—Japan marked the 65th anniversary of the US atomic bombing of Hiroshima on Friday with the United States represented at the ceremony for the first time.

A peace bell tolled at 8:15 am, the time the bomb was dropped by the US B-29 warplane Enola Gay on 6 August, 1945, as tens of thousands of elderly survivors, children and dignitaries held a minute of silence under the burning summer sun.

“... clearly the urgency of nuclear weapons abolition is permeating our global conscience,” Hiroshima Mayor Tadatoshi Akiba said in a speech followed by the release of white doves. The Hiroshima bomb, nicknamed “Little Boy”, released a mix of shockwaves, heat rays and radiation, killing thousands instantly.

By the end of 1945, the death toll had risen to some 140,000 out of an estimated population of 350,000. Thousands more died of illness and injuries later. The United States sent a representative to the ceremony for the first time, reflecting President Barack Obama’s push to rid the world of nuclear weapons.

“For the sake of future generations, we must continue to work together to realise a world without nuclear weapons,” US Ambassador John Roos said in a statement.

**Thai King allows artificial rainmaking to ease drought**

**Bangkok, 7 Aug**—King Bhumibol Adulyadej of Thailand on Thursday has allowed Queensland, Australia, to use artificial rainmaking technique to mitigate drought there, the Thai News Agency (TNA) reported.

Thailand has been a world leader in the field of artificial rainmaking due to the effort of the King, who began trial of the artificial rainmaking technique.

The European Patent Office in 2006 granted King Bhumibol a patent for “weather modification by royal rainmaking technology.”

**DPRK suffers from serious flood damage**

**Pyongyang, 7 Aug**—Heavy rainfall drenched the Democratic People’s Republic of Korea (DPRK) last month, causing great damage to the national economy and people’s daily lives, the official news agency KCNA said on Thursday.

According to the KCNA, the heavy downpour created floods and caused massive losses to the country’s railway traffic, agriculture and other economic sectors.

Some 5,560 houses and more than 350 public buildings were destroyed and about 14,850 hectares of farmland was submerged. A number of industrial establishments, transformers, roadbeds and railways were also damaged.—MNA/Xinhua

**Conn man kills nine, self, in his workplace**

HARTFORD, 7 Aug — Company officials Thursday rejected a suggestion that Omar Thornton was driven by racial harassment to kill eight people at a Connecticut beer distributor. Ross Hollander, chief executive officer of Hartford Distributors Inc, told reporters on Thursday Thornton had been “embraced” by the company until he was found to be stealing beer and then re- selling it, ABC News reported.

Thornton started stealing, after being shown surveillance video in which he was seen stealing, killing eight people on Tuesday before taking his own life.

“As for the claims that Omar’s actions were result of racial insensitivity, I can state to you unequivocally that no claim has ever been directed at him that was racially motivated,” he said, reading from a prepared statement. Thornton’s girlfriend told ABC News of the “Good Morning America” on Thursday he had described racial harassment directed at him that was enough to drive someone “crazy.”

**Huge ice sheet breaks from Greenland glacier**

OTTAWA, 7 Aug — A giant sheet of ice measuring 260 sq km (100 sq miles) has broken off a glacier in Greenland, according to researchers at a US university. The block of ice separated from the Petermann Glacier, on the northwest coast of Greenland. It is the largest Arctic iceberg to calve since 1962, said Prof Andreas Muenchow of the University of Delaware.

The ice could become frozen in place over winter or escape into the water between Greenland and Canada. If the iceberg moves south, it could interfere with shipping. Prof Muenchow said. Cracks in the Petermann Glacier had been observed last year and it was expected that an iceberg would calve from it soon.

**Sewage-powered car hits the road**

LONDON, 7 Aug — A Volkswagen Beetle powered by gas from sewage has taken to the road for the first time in Britain. The Bio-Bug was launched by Wessex Water, which is generating methane from human waste at a sewage treatment works near Bristol. The company claims the prototype is able to cover 10,000 miles annually on the waste from 70 households.

Mohammed Saddiq, of sustainable energy firm GENeco, which developed the prototype believes the car can ‘blow away’ electric cars and pave the way for a green motoring revolution. He says the increased production of bio gas will accelerate the growth in this still-nascent market.

**Ariz toddler’s body found in sludge pit**

Dewe, 7 Aug — The body of Emmett Trapp, a 2-year-old Arizona boy who had gone missing on Monday was found in a sludge pit about a mile from his home, officials said. The boy’s mother called the sheriff’s office Monday night to report him missing. She said she had awakened from a nap and couldn’t find him, the Prescott (Ariz) Daily Courier reported on Thursday.

Sheriff’s deputies arrived about 10 minutes later and started searching the area.

More than 90 searchers from public safety departments and volunteer organizations, along with the FBI, looked for the child. Horseback and all-terrain vehicle riders with bloodhounds joined the search. Dwight D’Evelyn, a Yavapai County Sheriff’s Office spokesman, said a search team lives near the pit saw small footprints and told the sheriff’s office. — Internet

Jordan has been swept by a heatwave since Friday with temperatures well above their seasonal average, reaching 40 degrees Celsius (104 degrees Fahrenheit) in Amman, according to local media on Wednesday.

**Newspaper: NZ gambler trumped by own casino ban**

A man who won 60,000 New Zealand dollars ($44,000) playing poker at an Auckland casino was refused the jackpot because he had banned himself from the premises for gambling too much, a newspaper reported on Friday. Sothea Sinn, 28, won the prize playing Caribbean stud poker at Auckland’s SkyCity Casino on Wednesday but casino staff refused to pay, saying he was banned at his own request, The Dominion-Post newspaper reported. “I was absolutely gutted,” Sinn told the newspaper.

Sinn said that in 2004 he demanded the casino ban him and his girlfriend because he was gambling too much. He said he thought the ban had expired, but on Thursday, casino staff refused to pay, saying he was banned at his own request.

**Oprah Winfrey Network picks Rosie O’Donnell to host new talk show**

**BEIJING, 7 Aug—**The Oprah Winfrey Network signed Rosie O’Donnell to host a daily program scheduled to begin airing in 2011, the network announced Thursday.

“Rosie is an undeniable talent who has captivated TV audiences for nearly 20 years,” Oprah Winfrey said in a statement. “She’s a true original, who brings her authentic voice, dynamic energy and pure passion to everything she does.”

O’Donnell earned six Daytime Emmys for Outstanding Talk Show Host during her years on “The Rosie O’Donnell Show” from 1996 to 2002. In 2006, she replaced Meredith Vieira as co-host and moderator of “The View.”

The new program produced by O’Donnell will be a one-hour daily show based in New York.

“It’s an honor and a privilege to work with Oprah Winfrey on her network,” O’Donnell said in a statement. “I’m excited to be back on daytime television.”

**Jia Zhangke given lifetime honour at Swiss Film Fest**

**BEIJING, 7 Aug—**Chinese filmmaker Jia Zhangke has received a lifetime achievement honour from the Locarno International Film Festival in Switzerland.

The 40-year-old director accepted the Leopard of Honour in Locarno on Thursday (5 August).

Olivier Père, the festival’s artistic director, said, “This is the first time that Locarno has given a Leopard of Honour to such a young filmmaker, but he is already one of the major names in world cinema.”

The award joins Jia’s collection of international awards that also include a Venice Golden Lion. Jia’s notable works include “Still Life”, “24 City” and “Pickpocket”. These art-house films have brought the director to the international limelight, but have yet to enter the domestic mainstream.

**Prince Albert of Monaco visits the King of Rock**

**MEMPHIS, 7 Aug—**Prince Albert of Monaco and his fiancee visited the home of the “King of Rock ‘N' Roll” and sampled some barbecue during a vacation stop in Memphis.

The couple took a tour Thursday of Graceland, the 38-room mansion where Elvis Presley died in 1977 and is buried.

The prince says he always wanted to visit Graceland and calls Elvis an “extraordinary figure.”

Fabregas confirms he will stay at Arsenal

Cesc Fabregas

LONDON, 7 Aug — Cesc Fabregas confirmed on Friday he will stay at Arsenal this season after conceding he won't get his wish to rejoin Barcelona.

Fabregas met Arsene Wenger before the World Cup to ask the Gunners boss to let him move to the Spanish champions, sparking a summer-long saga of claim and counter-claim between the two clubs.

But the 23-year-old Spain midfielder, who quit the Nou Camp to join Arsenal as a teenager, was unable to persuade Wenger to accept Barca's offers of around 30 million pounds (47.7 million dollars) and has now announced he will remain at the Premier League club.

"Firstly I would like to apologise to all the Arsenal fans for not speaking sooner about my future but I have not known what I was going to do until this moment," Fabregas said in a statement. "I cannot deny that joining a club like Barcelona was not an attractive move for me.

"This was the club where I learned my football, it is my home town where my friends and family are and a club where I have always dreamed of playing. "There are not many players in the world who would not want to play for Barcelona."

Bellamy set for Wales return

Cardiff, 7 Aug — Manchester City Craig Bellamy should make his first Wales appearance in 10 months after being named in John Toshack's squad to face Luxembourg in a friendly next week.

Bellamy has been absent from the last four Wales matches, but has been selected in a 23-man party for the clash at Llanelli's Parc Scarlets on Wednesday.

Millwall striker Steve Morison also features for the first time after pledging his allegiance to Wales, while Cardiff defender Darcy Blake could also be in line for a first cap.

Morison, who is eligible due to a Welsh grandparent, scored 29 goals as Millwall were relegated from the Championship last season and won promotion from League One last season and are ready to sign Benfica left-back Fabio Coentrao.

Ancelotti quashes Coentrao talk

LONDON, 7 Aug — Carlo Ancelotti has rubbished reports Chelsea are ready to sign Benfica left-back Fabio Coentrao as a replacement for unsettled Ashley Cole.

Ancelotti was linked with a move for Coentrao this week following claims Cole had told the Blues boss he wants to join Real Madrid to escape the recent scrutiny into his private life.

But Ancelotti is determined to keep Cole and, speaking on Friday ahead of Sunday's Community Shield clash with Manchester United, he said of the Coentrao rumours: "It's not true, totally rubbish."

While Ancelotti isn't interested in the hunt for a replacement for Cole, he does want to bolster his options in midfield and is said to be close to signing Brazil midfielder Ramires from Benfica for around 18 million pounds.

Tigana relishing new French challenge

PARIS, 7 Aug — New Bordeaux coach Jean Tigana is relishing being back at the helm of a French side 11 years after leaving Monaco and having a spell in England with Fulham, the former France star said on Friday.

"Certainly I shall be a little emotional," the Euro 2004 winner admitted as he prepared for Sunday's trip to Montpellier.

"Preparations have gone well — there have been no major problems," said Tigana, who has to raise the bar for a Bordeaux side which won in 2009 to break a seven-year streak by Lyon but which last year fell away to miss out on European qualification altogether.

The club then lost coach Laurent Blanc to the French national side after the controversial reign of Raymond Domenech came to an ignominious close at the World Cup in South Africa.

Liverpool face Turkish challenge in Europa League

NYON, 7 Aug — Former European champions Liverpool, who missed out on their accustomed Champions League place, will face Turkish side Trabzonspor in the play-offs of the second-tier Europa League.

The draw, staged at UEFA's headquarters on Friday, also pitted Manchester City against Timisoara of Romania, while Aston Villa face Austria's Rapid Vienna and Celtic meet Dutch side Utrecht.

This is the second successive season Villa and Vienna have met at this stage of the competition, with the Austrian side advancing on away goals last season.

Celtic dropped down to Europe's second tier club competition after defeat to Sporting Braga in the Champions League qualifiers.

Goosen takes 1-shot lead over Mickelson

ARONDEKNEKOP, 7 Aug — Phil Mickelson is closing in on No 1. The first step is to make up a one-shot deficit against Retief Goosen, the 36-hole leader on Friday at the Bridgestone Invitational. Looking more inevitable is Mickelson finally supplanting Tiger Woods atop the world ranking.

Goosen turned bogey into birdie by chipping in from 25 yards off the green at No 4, sending him on his way to a 4-under 66 that gave him a one-shot lead over Mickelson and Justin Leonard (66) going into the weekend at Firestone.
Ma Yu Yu Mar (a) Mi Nge
Aged 32
Daughter of (U Maung Maung) + Daw Babe Than at the fist floor of No 165, 46th Street, Botahtaung Township, Yangon, daughter-in-law of U Aung Myint + Daw Tha Min Myat, wife of Ko Min Min Htun, younger sister of Ko Tun Htoo + Ma Lei Lei Mar, Ma Soe Soe Mar, Ko Aye Thaw Than, Ma Thin Thin Mar and Ko Aung Soe Moe + Ma Swe Swe, aunt of Maung Lwin Bo Aung, Maung Ye Wai Yan Hein and Maung Htet Wai Yan Kaung, passed away at 3:55 pm on 5-8-2010. The funeral service will be held at Y’ayway Cemetery, noon on 10-8-2010. The buses will leave the house at 10 am on 10-8-2010.

Forecast for Nay Pyi Taw and neighboring area for 8-8-2010: Isolated rain or thundershowers of certainty is (80%).

Forecast for Yangon and neighboring area for 8-8-2010: One or two rain or thundershowers. Degree of certainty is (80%).
Only with stability and peace will the nation develop
Only with stability and peace will democratization process be successful

Anarchy begets anarchy, not democracy
Riots beget riots, not democracy
Democracy can be introduced only through constitution

People’s Desire
- We favour peace and stability
- We favour development
- We oppose unrest and violence
- Wipe out those inciting unrest and violence

VOA, BBC-sowing hatred among the people
RFA, DVB-generating public outrage
Do not allow ourselves to be swayed by killer broadcasts designed to cause troubles

New motor road under construction to link Hill Resort and Ruby Land

We saw construction of the new road section along Thekkan-Nyaungdon-Medaw-Naungpein route with the use of bulldozers and dumper trucks. Public Works of the Ministry of Construction is undertaking extended construction and maintenance of roads and bridges as the main duty for ensuring secure and smooth transport and building a modern and developed new nation.
