1. The member organizations of UNFC, as a united entity, have decided to have comprehensive cease-fire and peace-talks with the government of Myanmar/Burma and would not accept any cease-fire and peace talks between the government and individual member organizations from now on. The UNFC, therefore, officially notifies the government of Myanmar/Burma that the UNFC is a sole negotiation body to the government in terms of comprehensive cease-fire and peace talks with the UNFC member organizations.
 2. A large number of people have been subjected to atrocities and forced to flee from their homes and homelands due to brutal and intense military attacks against KIO controlled areas, which took place from 14th December to the present. The UNFC must point out that such inhumane military acts have severely eroded trust, granted by the international community, to the president U Thein Sein despite his repeated announcements of his commitment to peace making. Expressing a strong protest against the government's outrageous military acts, the UNFC expects U Thein Sein to bring his stronger and more effective leadership to bear on the government armed forces. With an appeal to every country, international organization and non-governmental organization that are supportive to democratization of Myanmar/Burma to pay more attention to the unenviable status of ethnic nationalities in Myanmar/Burma, the UNFC would like to request them to understand the hardship and support the realization of complete cease-fire and commencement of meaningful peace-talks.
 3. All the member organizations of UNFC have unanimously confirmed in the annual meeting that they are ready to start talks with the government as a united entity. The UNFC, therefore, requests the government to immediately halt attacks by the government armed forces against the ethnic nationalities. The UNFC herewith officially announce that it is ready to fully cooperate with the government on the reconciliation of all nationalities and the unity of the nation only when complete ceasefire and political solution is made by the military, as the UNFC members and the affiliates so resolved in the annual meeting.

4. The UNFC strongly urges U Thein Sein to invest U Aung Min with sufficient authority and concrete funds in order to create condition for effective and persuasive peace-talks and political dialogue with the ethnic nationalities, and to hold peace-talks and political dialogue with UNFC in a neutral venue.
