LEI - the Environment Institute of Indonesia

TCCM's and MTMA's forest certification programs, including the Joint Forest Management Agreement (JFMA)
Forest Certification in Myanmar

FMU (SFM - Sustainable Forest Management) projects are guided by the forest certification standards of ITTO C & I. MOECAF is one of the implementing agencies for the Pan-ASEAN Timber Certification Initiative (Pan-ASEAN Timber Certification Initiative) and the National Code of Harvesting Practices (NCOHP - National Code of Harvesting Practices). The MTCP project focuses on the implementation of the RIL guidelines and the COC guidelines for sustainable forest management.

RIL guidelines are implemented by the Myanmar Forest User Groups (FUG - Forest User Groups) and are supported by the Ministry of Natural Resources and Environmental Conservation (General Direction of Forests). The MTCP project is aimed at improving the management of natural resources and environmental conservation in Myanmar. The project is funded by the European Union and implemented by MOECAF and the Myanmar Forest User Groups.
