Four exile groups outlawed and threat to outlaw NLD

The Junta accused NCUB, NCGUB, FTUB, NLD(LA) and ABSDF of being responsible for bomb attacks since 2003 and declared them as unlawful association. NLD also was accused of having links with the exiled groups and threat was given to outlaw it as has firm evidence to declare NLD unlawful. All these have been under law that is Unlawful association Act.

What firm evidence the junta has is never disclosed. It is its whim and fancy and then it dragged in a law to give legality to its illegal act. The Act doest not provide extra territorial jurisdiction and all the organization declared illegal are outside in exile.
