KACHINS AGREE TO CEASEFIRE WITH SLORC
On 2 Oct, Rangoon Television broadcasted a ceremony in Myitkyina to mark the agreement between the Kachin Independence Organization (KIO) represented by Vice President Major-General Zau Mai and the State Law and Order Restoration Council (SLORC) represented by Secretary 1, Lieutenant-General Khin Nyunt. SLORC immediately exploited the occasion by having its Foreign Minister U Ohn Gyaw tell the United Nations General Assembly on 12 Oct that 10 'terrorist groups' including the Kachins had 'returned to the legal fold' and have been reintegrated into the national mainstream. According to Kachin sources, they have agreed only to a ceasefire under external pressure in order to facilitate political negotiations. They maintain that political negotiations must follow if SLORC is serious about resolving the civil war. SLORC's National Convention with its various restrictions is not viewed as being adequate. To date, no political talks have taken place between SLORC and the KIO, and it cannot be claimed that the Kachins and others have been 'reintegrated into the national mainstream'. To complicate matters, KIO Chairman Brang Seng suffered a stroke in Oct and was hospitalized in Kunming, China, thereby delaying the official signing of the ceasefire agreement. The Democratic Alliance of Burma on 15 Oct suspended the KIO from its membership for not insisting on a nation-wide ceasefire which is a DAB pre-condition for talks with SLORC [BA].

DR EM MARTA DETAINED AND DEPORTED BY SINGAPORE
Dr Em Marta, Foreign Minister of the Karen National Union (KNU) and a member of the National Council of Burma’s (NCUB) delegation to the United Nations was detained on 21 Oct by Singapore authorities while in transit from Bangkok to New York. Singapore said that Marta's travel documents were false but inside sources claim that Marta had sufficient documentation to have entered the USA legally. Transit passengers do not normally have their passports examined. Some observers point to the abduction by SLORC of 11 dissident Burmese seamen while in transit in Singapore in June, and suspect a conspiracy. Earlier, other ethnic members of the NCUB delegation were denied exit from Thailand. Only Burman delegation members were allowed to leave, confirming reports that SLORC is trying to divide the Burmese democracy movement along ethnic lines. Marta was finally sent back to Bangkok after several nations and NGOs expressed concern for his safety and freedom of movement [BA].

JAPAN CALLS ON SLORC TO RESTORE DEMOCRACY
On 30 Oct, Japanese Foreign Minister Tsutomu Hata told SLORC's Foreign Minister U Ohn Gyaw that Japan has 'considerable interest' in seeing an early transfer to democratic rule and greater respect for human rights. Hata expressed hope that SLORC's National Convention will lead to the earliest possible democratization of Burma. U Ohn Gyaw was in Tokyo on an unofficial visit and had a 40 minute meeting with Hata [Kyodo931030].

REFORM FIRST BEFORE JOINING ASEAN - MANILA
A senior official said that Foreign Secretary Roberto Romulo explained to SLORC Foreign Minister U Ohn Gyaw that the Philippines will oppose Myanmar's entry to ASEAN if SLORC fails to implement democratic reforms. The two met in Oct at the UN General Assembly [ST/BA].

SLORC'S EXTERNAL DEBT MUSHROOMS TO US$7.5 BILLION
Burma's foreign debt generally estimated at US$4 billion with US$1 billion in unpaid interest payments is now believed to be closer to US$7.5 billion. US$2 billion of the debt was denominated in Yen at the exchange rate of Yen220 to the US$1 in 1985. The Yen has since appreciated against the dollar to Yen108, increasing SLORC's debt burden. The SLORC delegation to the World Bank-International Monetary Fund (IMF) annual meeting in Oct is said to have broached the possibility of an emergency rescue package but was turned down [BA].
Burma News:

THAILAND TO KEEP WATCH ON BURMESE DISSIDENTS
First Army Commander Lieut-General Chetha Thanajaro on his return 11 Nov from the 8th Burma-Thailand border meeting in Rangoon said that Thailand had been asked by SLORC to keep an eye on 13 Burmese dissidents who might use Thailand to get to third countries to conduct political activities against Rangoon. Chetha said that “We have to try much harder to show our sincerity towards Rangoon” [B931112].

TROUBLE AT RATCHABURI ‘SAFE’ CAMP
Thai Interior Ministry officials reported a fire and a break-in at the UN High Commission for Refugees office in the Maneeloy ‘Safe’ Camp in Ratchaburi province in Oct. Death threats were also received by UNHCR staff in Sep. According to Thai officials, Burmese student refugees were unhappy with the UNHCR for having reduced their monthly allowance from US$80 to US$32 and blamed them for the incidents. The UNHCR then temporarily suspended payment of allowances to 135 student refugees. The students, however, claim that they were not responsible. Camp residents include illegal immigrants and other refugees from the border. Criminal elements in the camp with links to SLORC may have been responsible [B931013,N931012,BA].

1992 NOBEL PEACE LAUREATE MENCHU VISITS THAI BORDER
1992 Nobel Peace Laureate Rigoberta Menchu of Guatemala visited 2 refugee camps on the Thai-Burmese border in Sep. Speaking at a press conference, she said, “Considering the human rights violations in Burma and the level of persecutions there, Burma should not be included in ASEAN. The indigenous peoples have suffered oppression almost equal to genocide.” Annoyed by the laureate’s visit, SLORC threatened that Thailand would have to pay the price for allowing her into the country. Thai officials, however, pleaded that they could not prevent Menchu from entering Thailand because she was travelling on a UN passport [N930917,20].
