## TABLE 2. SECTORAL DETAIL ON PREPAREDNESS AND RESPONSE BY HUMANITARIAN PARTNERS

### PROTECTION

**Across all locations**
- UNFPA, together with UNOPS, conducted online training for 30 people from Global Fund partner organizations on gender-based violence (GBV) basic concepts, guiding principles and the role of health actors in GBV prevention and response. Additionally, online trainings were organized for 200 basic health staffs (midwives and nurses) on basic psychosocial support and GBV, as well as for 35 teachers and instructors from nurse and midwifery schools on basic sexual and reproductive health and rights (MHPSS), GBV and mental health and psychosocial support (MHPSS).

**Rakhine**
- The Communication with Communities (CwC) working group in Rakhine developed new IEC materials on how to safely wear cloth masks, including audio messaging in both Rakhine and Rohingya languages, which have been distributed through partners and continues to be disseminated through various channels. In addition, the community perception survey on COVID-19 was rolled out and over 490 interviews were conducted in the 20 Rohingya IDP camps in central Rakhine.
- GBV case management, small-scale PSS and GBV safety audit are ongoing. GBV partners are using online PSS and GBV case management services. GBV actors received requests for dignity kit distribution at the quarantine centers in northern Rakhine and they will respond. Training on protection, GBV and Child Protection (CP) for volunteers at quarantine centers is planned together with protection and CP working groups.
- CP partner shared audio message of MoHS, reaching over 280 in camps of Sittwe and Pauktaw townships and also identified five CP cases during the reporting period.
- An assessment was carried out to identify knowledge gaps and other issues facing adolescents, girls and boys, is ongoing in IDP camps in Sittwe Township, through home visit and it will start next week in IDP camps in Pauktaw Township. Close to 1,550 adolescents are targeted to reach through this assessment. Online trainings on migration for CP partners were conducted with nearly 100 participants in June.

¹ Numbers are cumulative, double counting may have occurred. Total number of IDPs reached is not available.
<table>
<thead>
<tr>
<th>Region</th>
<th>Actions and Activities</th>
</tr>
</thead>
</table>
| Myanmar       | • UNICEF distributed 50 Child Friendly Space (CFS) kits to conduct the CFS activities in IDP sites in northern Rakhine. The Government and CP partner conducted mask campaigns in markets of Buthidaung and Maungdaw and distributed 2,000 masks.  
  • CP caseworkers and community mobilizers conducted coping stress awareness for adults and children through the house to house visit in Taung Paw camp in Myebon.  
  • CP partners continue awareness sessions (PSEA, human trafficking and smuggling) to mitigate protection risks through promotion of help seeking behavior, as well as COVID-19 prevention key messages through four community centers and via phone in the communities. Partners set up CP helpline to support children and parents with COVID-19 concerns and are availing online PSS and case management services.  
  • CP partners conducted orientation for camp-based staff on case management guidance during COVID-19 and provided protective materials to ensure their safety.  
  • A CP partner also conducted awareness session on COVID-19 in 11 village-tracts, reaching 450 people, including in two IDP sites, in Buthidaung.  
  • A CP partner reached around 285 individuals with audio COVID-19 awareness messages in camps of Sittwe and Pauktaw townships.  
| Chin          | • The partners have reached affected populations with five CP volunteers, who are distributing some 600 COVID-19 coloring books with specific sessions, including on risk communication and PSS messages.  
  • Additionally, new CFSs could be planned for Samee and Paletwa towns where these spaces are not available.  
| Shan (north)  | • Protection monitoring continues remotely through phone calls with protection focal points in camps. A risk communication and community engagement (RCCE) tool was rolled out to monitor the effectiveness of COVID-19 related RCCE in camps across northern Shan.  
  • GBV case management, small-scale PSS, support at safe houses are ongoing. GBV case workers from camps continue GBV awareness, PSS and reproductive health education, and delivering COVID-19 awareness raising sessions. Women and Girls Centers (WGCs) are equipped with handwashing stations, hand sanitizers and COVID-19 IECs. GBV survivors can access services through case workers from camps as well as directly call to IRC call center (GBV Hotline). GBV partners organized basic MHPSS training for 60 members and 4-day MHPSS training for 13 members. Some 3,000 dignity kits are now in stock in Lashio and 88 kits were distributed to women and girls in quarantine centers. WGCs are now reopening to run regular center activities by following social distancing practice.  
  • MoHS COVID-19 awareness messages reached around 70 individuals in one village of Kutkai Township. Six CP cases were registered during the reporting period.  
| Kachin        | • Protection partners rolled out a RCCE monitoring tool to understand the extent and impact of RCCE activities, prevention measures, feedback mechanisms, and impact of prevention measures on IDPs' access to services and assistance in 128 camps in Kachin.  
  • Protection monitoring tools were developed for protection organizations and CSOs to collect information and respond to needs and issues in quarantine facilities.  
  • DSW and GBV actors distributed over 14,000 dignity kits to women of 12 years old and above in IDP camps. Additionally, GBV working group members are conducting safety audit in IDP camps and villages to define the risks faced by women and girls, which will help to identify GBV risk mitigation measures.  
| Kayin/Mon     | • Integrated SRHR/GBV/MHPSS services and clinical care for GBV survivors by the Karen Department of Health and Welfare and the Marie Stopes International (MSI) at the static clinics are ongoing. Awareness raising activities on SRHR and GBV at the Non-Government Control Areas (NGCA) have resumed in a small group. Some 3,500 dignity kits have been provided to DSW for returning migrant women and girls at the quarantine centers. Some 6,600 flyers on GBV/MHPSS/SRHR/PSEA and RCCE messages were distributed to DSW and GBV partners for further distribution at the community level. |
In addition, 2,900 dignity kits were handed over to DSW for returning migrant women and girls at the quarantine centers. 6,200 flyers on GBV/MHPSS/SRHR/PSEA and COVID messages were distributed to DSW and GBV partners for further dissemination at the community level. Online training on basic PSS was provided to Voluntary Service Overseas (VSO) staff and their partners in Mon State.

- CP reached 6,022 parents/caregivers through PSS to provide positive environment for their children in Mawlamyine and Hlaingbwe townships and PSS support to 2,350 children in Mawlamyine.

| Chin           | • UNICEF through the Department of Rural Department targeted 31 locations throughout six townships with construction of 52 handwashing facilities that will support 10,400 individuals, and distributed material in (public area and health care facilities) in four locations of four townships.  
• UNICEF through Karuna Mission Social Solidarity (KMSS) targeted 338 locations throughout eight townships with the construction of 581 handwashing facilities that will support 102,400 individuals; distributed 581 bars of soap for 2,905 Individuals; and distributed COVID-19 IEC materials in 338 locations throughout eight townships. | • UNICEF through KMSS targeted 28 quarantine centers throughout six townships with the construction of 62 handwashing facilities that will support 1,240 individuals; distributed 62 bars of soap for 62 Individuals; and COVID-19 IEC materials. |
| Rakhine        | • WASH Partners (Save the Children International (SCI), SI, RI and Oxfam and SI (OXSI) OXSI), targeted 14 IDP camps in three townships, distributing 16,008 soaps bars, 116,212 liquid soaps/hand sanitizers. Cleaning campaign reached over 22,800 people and while awareness messaging sessions reached over 81,456 individuals. |                                                                                                             |
| Shan (north)   | • WASH clusters/partners (UNICEF, SCI, SI, RI, OXFAM, MAUK, IRC, CA, PIN) distributed 35,668 soaps bars, 6,318 liquid soaps/hand sanitizers, 44 of newly constructed HWS, and conducted 13 cleaning campaigns reaching a total of 24,550 and further, reached 93,464 individuals with risk messaging, all in total of 34 new displacement sites, 19 public areas, 2 primary schools, 91 villages and 8 HCF in eight townships. | • UNICEF, through DRD targeted seven locations in Namhsan Township with the construction of 17 handwashing facilities that will support 2,200 individuals; distributed 102 bars of soap for 510 Individuals. |
| Kachin         | • WASH partners have reached 8,700 people in 220 quarantine facilities of 18 townships, setting up handwashing stations and providing soap, toothbrush, tooth paste and 20-liter water bottles, as well as other hygiene items (body and laundry soap, bucket, |                                                                                                             |

</tr>
</thead>
</table>

Additionally, IEC materials, pamphlet, stickers, poster and audio files were also distributed to over 22,500 people in 27 IDP camps.

- KMSS installed 200 hand washing stations, distributed 12,000 soap bars and some 700 COVID-19 posters, targeting 190 villages and reaching 51,188 people in Myitkyina.
- Solidarités international (SI) provided 48,214 soap bars and 3,312 hand sanitizers to 18 IDP camp in Bhamo and Momauk townships.

**COVID-19 response at public area, health care facilities, schools, camps**

- UNICEF through the Department of Education (DoE) targeted 35 locations throughout seven townships with the construction of 71 handwashing facilities for 7,100 individuals.
- UNICEF, through DRD targeted 150 locations throughout five townships with the construction of 164 handwashing facilities that will support 29,500 individuals; and distributed 2,700 soap bars for 13,500 individuals; and further distributed IEC materials in three locations of three townships.
- UNICEF through Karen Education and Culture Department (KECD) targeted 30 locations throughout four townships with the construction of 30 handwashing facilities that will support 3,000 individuals. Additionally, UNICEF, through Pa Dauk Min targeted 19 locations throughout two townships with construction of 25 handwashing facilities that will support 4,100 individuals.

**COVID response at quarantine facilities**

- UNICEF, through State Health Department (SHD) targeted all quarantine centers throughout seven townships with the distribution of 12,000 soap bars for 12,000 people.
- UNICEF, through Pa Dauk Min targeted five quarantine centers throughout Hpa-An Township with the construction of five handwashing facilities for 100 individuals.

**EDUCATION**

**Across all areas**

- EiE partners are providing learning materials to students, including masks, soap and other health and hygiene materials in student kits for COVID-19. Distribution is already underway for over 9000 students in Shan, Kayin, and Kachin States.
- The risk of disrupted learning and school drop-outs increases during extended school closures. Thus far, 12 EiE partners are working to provide learning materials for students to use at home so children and youth can re-engage with studies ahead of schools reopening, and all HRP areas will be reached with back-to-school campaigns.
- Over 320 volunteer teachers are accessing online trainings for the new curriculum for Grades 4, 7, and 10, with support from the Ministry of Education.

**HEALTH**

**Rakhine**

- The partners supported various supplies, including but not limited to PPE items, gloves, infrared thermometer, surgical masks, N95 masks, goggles, gowns, hand sanitizers, soap, chlorine powder and bleaching powder, pamphlets and vinyl posters.
- The partners supported the following services including but not limited to the risk communication and community engagement, capacity building, psychosocial support, laboratory samples transportation, referral of suspected cases and operational costs to quarantine centers.
- In addition, the partners supported medical supplies and equipment, capacity building and the case management at Thet Kel Pyin station hospital which is in the vicinity of majority of IDP population in Sittwe township. It is not feasible to estimate the number of beneficiaries as most of the support was provided to the service provider and through risk communication.

**Chin, Kayin**

- The partners supported various supplies including but not limited to PPE items, gloves, infrared thermometer, surgical masks, N95 masks, goggles, gowns, hand sanitizers, soap, chlorine powder and bleaching powder, pamphlets and vinyl posters. The health partners supported the contact tracing and referral of suspected COVID-19 cases.
- In addition, financial support has been provided to the MoHS for (1) mobile public announcement of COVID-19 information through the loudspeaker using vehicle; (2) distribution of IEC materials from State level to townships; (3) distribution of COVID-19 contingency plan booklets from Yangon to State health department. It is not feasible to
estimate the number of beneficiaries as most of the support was provided to the service provider and through risk communication.

| Kachin | • The partners supported the MoHS and NGCA health authority for various supplies including but not limited to PPE items, gloves, infrared thermometer, surgical masks, N95 masks, goggles, gowns, hand sanitizers, soap, chlorine powder and bleaching powder, pamphlets and vinyl posters.  
  • The partners supported the following services in both Government Control Area and NGCA including but not limited to, the RCCE, capacity building, PSS, laboratory samples transportation, referral of suspected cases and operational costs to quarantine centers, COVID-19 surveillance at points of entry and the MoHS health emergency operations center. It is not feasible to estimate the number of beneficiaries as most of the support was provided to the service provider and through risk communication. |
| Shan (north) | • The partners supported the MoHS and EHOs for various supplies including but not limited to PPE; gloves; infrared thermometer, surgical masks, N95 masks, googles, gowns; hand sanitizers; soaps; chlorine powder and bleaching powder; pamphlets and posters and IT equipment.  
  • The health partners supported the following services including but not limited to the risk communication and community engagement, capacity building, psychosocial support, laboratory samples transportation, referral of suspected cases and operational costs to quarantine centers and COVID-19 surveillance at points of entry. It is not feasible to estimate the number of beneficiaries as most of the support was provided to the service provider and through risk communication. |

### SHELTER, NON-FOOD ITEMS, CAMP COORDINATION AND CAMP MANAGEMENT

| Rakhine | • The CCCM/Shelter cluster revised the Business Continuity Plan (BCP) for COVID-19 and took the decision to resume shelter construction activities in camps.  
  • Camp management agencies (CMAs) and CCCM partners continue to deliver RCCE to affected populations in line with CWC working group guidance.  
  • Information collection for the Cluster Analysis Report has resumed with the next report scheduled for publication by mid-July. |

| Kachin | • On 8 May UNHCR met with the Secretary of the Kachin State COVID-19 Control and Emergency Response Committee to coordinate further NFI support for quarantine facilities across Kachin State. UNHCR delivered material support to the Kachin State COVID-19 Control and Emergency Response Committee, to be distributed to quarantine facilities in Myitkyina Township (220 plastic mats, 65 mosquito nets).  
  • On 11 May, UNHCR delivered further material support to the Kachin State Health Department, to be used in quarantine facilities (275 mattresses, 275 bed sheets, 275 pillowcases, 275 pillows, 631 towels).  
  • Following the Kachin State Government declaration making the wearing of face masks in public spaces mandatory for all people, most of the CMAs have provided masks to IDPs in their camps. The majority of the masks are reusable, made of cloth, and produced by IDPs with the provision of cash for work, with funding from UNHCR and other sources. Two masks are distributed per person in IDP households, including masks for children. There are plans for further distribution by CMAs in the coming days. In NGCA, the KIO Health Department has distributed mask to all camps for IDPs. |

| Shan (north) | • On 8 May, KMSS-Lashio (partner) distributed material support to quarantine facilities in Kuttai and Hseni townships (5 tarpaulins, 10 mosquito nets, 10 buckets, 10 plastic mats, 10 blankets).  
  • KBC-Bhamo provided support to quarantine facilities in southern Kachin (70 blankets, 70 sleeping mats, 70 mosquito nets). State/township authorities have not made any official announcement about mask provision in northern Shan. However, CMAs are planning to distribute masks to all individuals in camps in coming month. |

### NUTRITION

| • Essential nutrition services, including Outpatient Therapeutic Program (OTP) services, Supplementary Feeding Program (SFP) distributions, and COVID-19 awareness to the staff and beneficiaries are continuing. |
| Rakhine | • UNICEF has prepositioned essential nutrition supplies in Sittwe for contingency and COVID-19 response. Some nutrition partners have started nutrition promotion, such as mother-to-mother support group, culinary session, and nutrition awareness sessions in coordination with respective township and basic health staff. Rakhine nutrition partners supported Rakhine Health Department for biannual deworming campaign, jointly with measles and polio immunization activities.  
• Rakhine nutrition sub-sector has been coordinating with humanitarian nutrition partners for prioritization of the first standard allocation for MHF.  
• Rakhine partners have also reached total 6,887 pregnant and lactating women and 4,630 children (6-59 months) with essential preventive nutrition services and 1,384 children (6-59 months) with acute malnutrition services during COVID-19 response. |
|---|---|
| Chin | • Management and treatment of children with SAM and MAM was continued during the reporting period. Pregnant and Lactating Women have received key nutrition messages during antenatal care visits. MoHS basic health staff are providing primary health care services and Infant and Young Child Feeding (IYCF) to Samee IDP camp in Paletwa township twice a week. The Samee health staff continue providing nutrition screening to children and pregnant and lactating women in IDP camps in Samee.  
• For the treatment of acute malnutrition cases, UNICEF support 16 PAC of therapeutic milk (F-75 & F-100) to Falam and Hakha general hospitals on 28 May and 2 June.  
• Chin State Nutrition team received micronutrient supplements: Vitamin A, Thiamine, Micronutrient table from national nutrition center during the reporting period and the supplies will be distributed to children and pregnant and lactating women in Sami IDP camp, Paletwa township.  
• UNICEF has been coordinating for translation of nutrition promotion phamlets into local Chin languages (Tediam, Falam, Hakha and Khumi-Pletwa) and materials will be distributed once completed.  
• Community IYCF counselling, Integrated Management of Acute Malnutrition (IMAM) and Social Behaviour Change Communication (SBCC) program interventions are now resuming in township and community levels. |
| Kachin | • Sector partners continue to provide minimal nutrition services, such as growth monitoring activities: Mid Upper Arm Circumference measuring and weight measuring integrating with IYCF counseling during home visits by nutrition partner (World Concern). Capacity building of Kachin nutrition partners (Plan, World Concern and Community Partnership International) by attending virtual nutrition training by the sector is ongoing. Additionally, UNICEF has been coordinating with State Nutrition Team and State Public Health Department for the nutrition supplies to the township health departments and hospitals.  
• UNICEF supported Myitkyina township health department and the general hospital with five cartons of Ready to Use Therapeutic Food (RUTF), two cartons of therapeutic milk (F-75 and F-100) and 25 Packages of Resomal. Similarly, three cartons of RUTF were also distributed to Waingmaw Township health department. The supplies will be utilized for MoHS IMAM Program.  
• A virtual Kachin nutrition coordination meeting for COVID-19 response was held chaired by SHD on 28 May, with participation of 10 nutrition sector organizations.  
• Kachin nutrition partners have reached 1,517 pregnant and lactating women and 1,615 children (6-59 months) with essential preventive nutrition services. And the sector partners in Kachin are coordinating with partners for prioritization for the MHF’s first standard allocation. |
| Kayin | • Upon the request of pediatricians, UNICEF transported F-75 and F-100 to Myawaddy and Kawkareik District Hospitals for medical care of severe malnourished children.  
• Screening and referral of children with severe acute malnutrition with complication is continuing, while an IMAM Roll-out in northern Shan is being planned.  
• In Wa areas, the Health Poverty Action (HPA) has resumed nutrition activities, including Growth Monitoring and Promotion (GMP), Micronutrient powder supplementation in |
<table>
<thead>
<tr>
<th>Country</th>
<th>Activities</th>
</tr>
</thead>
</table>
| Shan (north) | Targeted villages. Similarly, weight monitoring activities are resumed by Relief International.  
- UNICEF is coordinating with partners for collecting and analysis of nutrition service mapping (nutrition 4W).  
- Community IYCF training is planned in Pangasang, Muse and Konekyan townships and State Nutrition team is awaiting the National Nutrition Center (NNC) approval. |
| Across all areas |  
- WFP and its partners continued two-month distribution to IDPs and crisis-affected people in Rakhine, Kachin, northern Shan and Chin (Paletwa).  
- Upon the request of the authorities, WFP and its partners provided food assistance sufficient for 55,000 returning migrants in and/or in transit to quarantine sites in Kachin, Kayin, Mon and Shan states; as well as Bago, Magway, Tanintharyi and Yangon regions.  
- To minimize exposure to the risk of COVID-19, WFP has developed a set of standard operating procedures for in-kind and cash distributions in the context of COVID-19. This includes an emphasis on hygiene practices, including the provision of hand sanitizers at distributions points and personal protective equipment (PPE) for WFP and cooperating partner staff, and the implementation of social distancing during distributions as far as possible. The World Health Organization/MoHS/WFP messaging on COVID-19 and good hygiene practices is being disseminated at all distribution sites. |
| Rakhine      |  
- Two-months food and or cash distribution to IDPs in central Rakhine is ongoing.  
- WFP and its partner verified 1,291 IDPs in Buthidaung to receive food rations after authorization from Rakhine State Government.  
- Distribution of paddy and vegetable seed as well as power tillers to 5,773 households in Maungdaw and Buthidaung townships, with support of FAQ and its partners is ongoing.  
- Renovation of 40 fishponds with accompanying fingerlings in 15 villages by Phyu Sin Saydana Action Group (PSSAG) is ongoing with support of People in Need. Some 906 households received 1,500 MMK for COVID-19 prevention as well as 90,000 MMK for each household with pregnant and breast-feeding women and or children. |
| Chin         | WFP and its partners distributed foodstuffs to 3,335 new IDPs for one month in Samee, with support of Chin State Government. |
| Shan (north) | Two-months food and/or cash distribution to IDPs in northern Shan is ongoing by WFP and its partners. |
| Kachin       |  
- Two-months cash assistance for food is ongoing for IDPs households in Kachin. WFP and its partner reached 317 returning migrants with cooked meal distribution in transit points and 11 quarantines centers in Lwgel and Momauk townships.  
- Following a request from Kachin State Government, WFP distributed 39,750 Mt of rice to 3781 people at Community Based Quarantine Centers in 10 townships in June.  
- DSW, under MoSWRR, provided cash assistance (Myanmar kyats 30,000 per person) for 2,084 Pregnant and Lactating Mothers and Children under two at IDP camps under (MCCT) Programme with support of WFP and partners. |
| Kayin        | Upon the request of the Kayin State Government, WFP and its partners have reached 31,200 returning migrants with one-time meal box at Myawaddy boarder gate. WFP has also reached 13,500 returning migrants in facility quarantine centers in Hpa-an and Myawaddy. |

**LOGISTICS**

| Country-wide | Three humanitarian flights arrived in Myanmar in June. On 9 and 10 June, UNICEF’s two special flights carrying sets of PPE items and other medical supplies each worth close to US$432,000 and over $334,300 arrived at the Yangon International Airport. On 14 June, WFP’s special flight brought WHO medical supplies and experts to support Myanmar in a fight against COVID-19 arrived in Myanmar. |
