National Unity Government - NUG
Ministry of International Cooperation**

Date: 24th April, 2021

We welcome the encouraging news that ASEAN leaders have reached consensus that the military violence in Myanmar must stop and political prisoners be released .This is what the National Unity Government has been calling for. We eagerly await the engagement by the Asian Secretary General as mandated by this meeting. We appreciate the strong words from President Widodo of Indonesia calling for the release of our heroes. We look forward to firm action by ASEAN to follow up its decisions and to restore our democracy and freedom for our people and for the region.
