

The MIMU 5W gathers inputs from participating humanitarian and development agencies on Who is doing What, Where, When and for Whom across Myanmar. It is normally conducted every 6 months and provides information on agencies' activities at various levels (village/village tract/township, and IDP camps).

In total, **209 agencies participated in the March 2022 round of the MIMU 5W**, providing information on their humanitarian and development activities across 22 sectors and 157 sub-sectors as defined by technical/sector working groups. 5W reporting is quite comprehensive for projects of INGO, UN and Red Cross agencies, but there is under-reporting of activities for local NGOs and CBOs, since not all are participating. Note that Agencies must report to a sufficiently detailed level (village or camp level) for their work to be reflected fully in the MIMU 5W products.

This Overview describes projects reported as under implementation in Rakhine as of March 25th, 2022. Further information on planned and recently completed projects is available from the 5W dataset, which can be requested by 5W Partners. Projects under implementation can also be viewed on our interactive dashboards - [5W Township Dashboard](#) and [5W Village Tract Dashboard](#).

2. Non-IDP focused projects - Other Vulnerable Groups and Development Projects

A total of 80 projects with a focus on non-IDP populations (Other Vulnerable Groups and/or Development-focused projects) were reported in 18 sectors in 813 village tracts/towns across Rakhine, representing 12% of the total projects reported to the Countrywide 5W and 59% of the projects in the whole of Rakhine state. Only 51% of total projects were reported at villages tracts/towns level, by 33 of the 57 agencies (mainly INGOs). As such, the actual number of villages/wards with activities is likely to be higher than what has been reported to the MIMU 5W.

Number of agencies:

In terms of the number of agencies: **Sittwe township has the highest concentration of active organisations (30 agencies)**, followed by Buthidaung (19 agencies), Mrauk-U (17), Maungdaw (15), Kyauktaw, Minbya and Pauktaw (14 in each), Ponnagyun (13), Rathedaung and Thandwe (11 in each), Kyaukpyu (9), Myebon (8), Gwa (7), Toungup (7), Ann (6), Ramree (4), Munaung (2).

Frequency of project interventions:

Note that the actual number of villages tract/towns level interventions would be higher than reported here as some agencies (33 of the 57 reporting agencies) did not include the villages tracts/towns level information in their 5W reports.

- **Health** is the most widespread intervention: **22 organisations reported 27 projects in 165 village tracts/towns and 284 villages/wards across all 17 townships** in Rakhine State. Agencies are reportedly more concentrated in the townships of Sittwe (11 agencies), followed by Buthidaung (8 agencies), Mrauk-U (7), Kyauktaw, Maungdaw and Thandwe (6 in each), Minbya (5), Kyaukphy, Ponnagyun and Toungup (4 in each). The majority of health interventions are Basic Health Care (69 village tracts/towns), TB Programme (48), Reproductive Health Care (41) and Malaria Programme (37).
- **Protection** is the second main sector: **15 agencies reported 21 projects in 339 villages/wards and 120 village tracts/ towns across 15 of the 17 townships** in Rakhine State. Activities were most concentrated in Mrauk-U (6 agencies), followed by Buthidaung and Maungdaw (5 in each), Kyauktaw, Pauktaw, Ponnagyun, Rathedaung and Sittwe (3 in each). The most frequent activities relate to Child Protection (68 village tracts/towns) and Gender Based Violence (54).
- **Livelihoods** is the third main sector: **14 agencies reported 13 projects in 1,187 villages/wards and 447 village tracts/towns in 14 townships**, mainly in the Sittwe (6 agencies), followed by Pauktaw and Ponnagyun (4 in each), Minbya, Mrauk-U and Myebon (3 agencies in each). The most frequent activities are Microfinance (363 village tracts/towns), Income Generation Support (77) and Cash Grants (41).
- **Education** is the third main sector: **11 agencies reported 12 projects in 902 villages/wards and 418 village tracts/towns in 14 townships**. Activities were more concentrated in Buthidaung, Maungdaw and Sittwe (5 agencies in each), followed by Mrauk-U (4), and Minbya, Pauktaw and Thandwe (3 in each). The most frequent activity is Food/Cash for Education (368 village tracts/towns).
- **WASH** is the fourth main sector: **9 agencies reported 10 projects in 174 villages/wards and 67 village tracts/towns in 7 townships**, mainly in Buthidaung and Maungdaw (3 agencies in each), followed by Minbya, Rathedaung and Sittwe (2 in each), and Mrauk-U and Pauktaw (1 in each). The most frequent activity is Hygiene Promotion & Behaviour Change (58 village tracts/towns).
- There are fewer activities focused on Other Vulnerable groups and/or Development-focused activity reported in other sectors: Nutrition (7 agencies, 92 village tracts/towns), Agriculture (6 agencies, 55 village tracts/towns), Food (6 agencies, 73 village tracts/towns), DRR (4 agencies, 51 village tracts/towns), Peace Building/ Conflict Prevention (4 agencies, 5 village tracts/towns), Governance (3 agencies, 1 township), Mine Action (3 agencies, 62 village tracts/towns), Environment (2 agencies, 5 townships), Infrastructure (2 agencies, 7 village tracts/towns), Non-Food Item (2 agencies, 6 village tracts/towns), Coordination (1 agency, 2 village tracts/towns), Private Sector Development (1 agency, 3 townships) and Social Protection (1 agency, 1 township).
- Among the more development-oriented sectors, no projects under implementation were reported for CCCM, Logistics, Responsible Tourism and Shelter sectors.

Overall, the 5W reporting of non-IDP focused activities in Rakhine (i.e., Other Vulnerable groups/Development-focused) indicates an **increase in Education, Nutrition, Protection, Livelihoods and Coordination sectors over the past 6 months, and a reduction in the reported Health, WASH, Peace Building/Conflict Prevention, DRR, Agriculture and Environment projects**. Activities related to Other Vulnerable groups/Development focused in 22 village tracts/towns in 12 townships were suspended. Most of them were suspended due to access/security constraints.
