## 3. NUG urges labor organization stop cooperating with the terrorist SAC

The Ministry of labour has warned that the military have tightened regulations and restricted the formation of labour unions and labour oriented civil society organisations. This controbutes to the oppression of labourers by the military, whose low wages and poor conditions allow the military owned and allied businesses to profit unfairly. Furthermore, a number of CSOs have openly begun to work hand in hand with the SAC under the pretext that the SAC has put in place justice mechanisms and regulations for the protection of labourers. It is the position of the ministry that collusion with the SAC, even if for the stated purposes of furthering labour rights, is an act legitimising normalising the regime and as such, is condemned. The ministry calls on all CSOs and unions to cease collaboration with the SAC and join the growing number of labour leaders, organisations, and associations which stand for labourers and labour rights despite and in defiance of military oppression. http://bit.ly/3VaQGcW
