The NUG welcomes an additional \$50 Million USD for the humanitarian assistance by the United States

21 February 2023

Last week, the United States, through the U.S. Agency for International Development (USAID), announced providing an additional \$50 Million USD for the humanitarian assistance for emergency food and nutrition assistance in Myanmar.

The NUG is grateful for the commitment of the US government in providing immediate and timely humanitarian support to the people of Myanmar. The junta has been indiscriminately targeting civilians and villages with the use of heavy weapons and artillery air strikes that result in increased displacements with large humanitarian assistance needs. The support from the USAID will greatly benefit those who are in need of humanitarian assistance across the country. We once again would like to express our sincere gratitude towards the US government for their kind assistance to Myanmar people.

Myanmar Spring Revolution will prevail!
