MoD Organizes IHL Trainings for Its Defence Forces

Since September 2022, the Ministry of Defence (MoD) of the National Unity Government has organized a number of trainings on International Humanitarian Law (IHL) in cooperation with Principles of Humanity.

The IHL trainings have been provided to members of People's Defence Force (PDF) and People's Defence Organizations (PDO) under the MoD in different military divisions and regions.

This is another bold step the MoD has taken to ensure combatants under its command and control follow international norms and standards while engaging in an armed conflict.

MoD will continue to organize further IHL trainings for its defence forces across Myanmar in 2023 and beyond.
