

The MIMU 3W gathers inputs from participating humanitarian and development agencies on Who is doing What, Where, across Myanmar. It is normally conducted every 6 months and provides information on agencies' activities at various levels (village/village tract/township, and IDPs camps). Given the changing situation, there has been a 9 month gap since the last 3W round documenting agencies activities as of August 28th 2020.

In total, 159 agencies participated in the May 2021 3W, providing information on their humanitarian and development activities across 22 sectors and 157 sub-sectors as defined by technical/sector working groups. 3W reporting is quite comprehensive for projects of INGO, UN and Red Cross agencies, but there is under-reporting of activities for local NGOs and CBOs, since not all are participating. This indicates 54 less agencies reporting than in the last MIMU 3W in August 2020, possibly due to the pressures of the COVID pandemic and/or uncertainty re the situation for agencies' activities countrywide. Note that Agencies must report to a sufficiently detailed level (village or camp level) for their work to be reflected fully in the MIMU 3W products.

This Overview describes **projects under implementation in Kachin** as of May 31, 2021. Further information on **planned and recently completed** projects is available from the 3W dataset, which can be requested by 3W Partners. Projects under implementation can also be viewed on our interactive dashboards - [3W Township Dashboard](#) and [3W Village Tract Dashboard](#).

2. Non-IDP focused projects - Other Vulnerable Groups and Development Projects

A total of 77 projects with a focus on non-IDP populations (Other Vulnerable Groups and/or Development-focused projects) were reported in 14 sectors in 352 village tracts/towns across Kachin, representing 13% of the total projects reported to the Countrywide 3W and 52% of the projects in the whole of Kachin state. Only 49% of total projects were reported at villages tracts/towns level, by 27 of the 45 agencies (mainly INGOs). As such, the actual number of villages/wards with activities is likely to be higher than what has been reported to the MIMU 3W.

Number of agencies:

Myitkyina township has the highest concentration of active organisations (29 agencies), followed by Waingmaw (18 agencies), Bhamo (16), Mohnyin (15), Mansi (13), Mogaung, Momauk and Tanai (12 in each), Hpakant (11), Puta-O (9), Chipwi, Machanbaw and Shwegu (6 in each), Nawnngmun (5), Injangyang (4), Khaunglanhpu and Sumprabum (3 in each) and Tsawlaw (2).

Frequency of project interventions:

Note that the actual number of villages tract/towns level interventions would be higher than reported here as some agencies (18 of the 45 reporting agencies) did not include the villages tracts/towns level information in their 3W reports.

- **Health** is the most widespread intervention: 21 organisations reported 31 projects in 227 village tracts/towns and 545 villages/wards across all 18 townships in Kachin State. Overall, the 3W reporting of non-IDPs focused activities in Kachin (i.e., Other Vulnerable groups/Development-focused) indicates a decrease in the village tract reach of activities in Coordination, Education, Environment, Governance, Health, Livelihoods, Mine Action, Protection and WASH projects over the past 6 months. Activities related to non-IDPs focused projects in 42 village tracts/towns in 15 townships were suspended. This may also related to the reduced number of reporting agencies.
