Maintain infrastructural buildings in concert

In the Union of Myanmar, various national races have been living in harmony through thick and thin from time immemorial. So, national brethren are to be equipped with a strong sense of Union Spirit.

Today, the government is working hard for development of the whole multicultural country. In the drive, it is implementing many projects including road and bridge projects for greater development of the regions that are still with poor transport.

In the past, Namsang in Shan State (North) was not easily accessible. Now, Namsang-Hsipaw Road, Namsang-Kyaukme Road and Namsang-Mongton Road have been upgraded to all-weather ones. And the township has got a 50-bed general hospital in addition to many infrastructural buildings in the education, electric power and communication sectors.

Similarly, there have been Mongton-Namtu Road and Mongton-Namsang Road that line Mongton and Namtu townships. The regions have to engage in the agriculture and livestock breeding in combination for economic growth. For those regions, cultivation of paddy in highlands is enough for local rice sufficiency. Local farmers should test five-acre paddy farming and five-acre tea farming for a plot each in the interest of their posterity. They have to try to extend their livestock farming from small to commercial scale.

The government has many projects on the go for equitable development of all regions. It has built many road networks covering the whole nation. For human resource development, it has opened numerous basic education schools along with arts and science university, a university for computer studies and a technological university each in the 24 special development regions for local youths to pursue education in their own regions.

Now, the government has built a great number of infrastructural buildings in the regions the whole Union, irrespective of location and size. Satisfactory results have been tangible in all sectors. Stability and peace contribute to regional development. Local people are therefore to work in concert for durability of the infrastructural buildings, while constantly participating in the tasks for ensuring the rule of law.

Practice makes perfect

NAY PYI TAW, 10 March — With the aim of increasing the awareness of fire preventive measures among staff of the Civil Service Selection and Training Board and systematic use of fire fighting equipment, CSSTB and Central Fire Brigade (Nay Pyi Taw) jointly organized an educative talk on prevention against fire and fire drill at the auditorium of the office of the CSSTB here this morning.

The deputy director of the Central Fire Brigade (Nay Pyi Taw) gave talks.

Next, the firemen demonstrated how to use the fire extinguisher.

Dy Education Minister visits matriculation exam centres

NAY PYI TAW, 10 March — The matriculation examination for 2010 academic year began across the nation today.

Officers with advanced archaeological knowledge

NAY PYI TAW, 10 March — Officers under the Ministry of Culture have got extra archaeological knowledge thanks to refresher course of the department.

Concluding ceremony of the course was held at Archaeological Technology Training School in Pyay Bago Division on 8 March, with an address by Director-General U Sann Win of Department of Archaeology, National Museum and Library.

A total of 12 trainees have compiled a thesis each as the course covers both theory and practical studies.

The Archaeological Technology Training School was opened in conjunction with Fine Arts University on 7 November 2005 and is conducting Post Graduate Diploma in Applied Archaeology (P.G.D.A.A) courses annually since 2006.

Regular diploma courses and refresher courses for officers will be conducted at the training school.

MNA

The matriculation students took the examination at 1299 exam centres in the nation and 15 exam centres abroad totalling 1314 simultaneously.

Deputy Minister for Education Brig-Gen Aung Myo Min visited exam centres at Nay Pyi Taw No. 1 Basic Education High School, Nay Pyi Taw Pinyinana BEHS No. 1 and No. 2 today.—MNA

Talks on administration and management at Yuzana Tower

YANGON, 10 March — Khin Maung Nyo (Economics) and professors will give talks on administration and management capacity enhancement at Yuzana Tower at the corner of Kaba Aye Pagoda Road and Shwegondine Street in Bahan Township here from 9 a.m. to 4 p.m. on 13 and 14 March.

Those who want to attend the talk may enlist at Ph: 556183 and 09-5157032.

Suicide attack kills five in eastern Afghan Province

KABUL, 10 March—A suicide attack rocked Paktika Province in east Afghanistan on Wednesday morning, killing five persons, provincial police chief Dawlat Khan Zadrán said.

"The incident occurred in Barmal District this morning. As a result, five persons including four Afghan soldiers and one border police constable were martyred," Zadrán told *Xinhua*.

He also said that it is initial report and the casualties could rise.

Zadrán blamed Taliban militants for the attack, saying the militants by organizing such offenses attempt to destabilize security in the province.—*Xinhua*

Three policemen killed in attack in western Iraq

FALLUJAH, 10 March—Three policemen were killed in a bomb explosion followed by gunfire in a

village in Iraq's western province of Anbar on Tuesday, a provincial police source said.

The incident took place when gunmen blew up a roadside bomb near a car carrying three policemen in Hissy village east of Fallujah city, some 50 km west of Baghdad, the source told *Xinhua* on condition of anonymity.

The blast was followed by small arms fire attack, killing the three policemen, the source said.

KHOST, 10 March—Two NATO soldiers were killed on Tuesday when a suicide bomber blew himself up outside a military base in Afghanistan, the alliance and local government sources said.

NATO spokesman Lieutenant Commander Iain Baxter confirmed two alliance soldiers had been

killed in a suicide attack in Khost but was unable to give further details about the incident or disclose the soldier's nationalities. A local government source, who declined to be named, told *Reuters* that a man wearing a suicide vest detonated the device outside a US military base also used by the Afghan

National Border Police in the Ali Sher District of Khost Province, close to Afghanistan's eastern border with Pakistan.

Israel, Syria eye nuclear power plants

PARIS, 10 March— Israel and Syria each announced plans Tuesday to develop nuclear power to meet the energy needs of the volatile Middle East, during a conference hosted by France to promote reactors.

Israel said it was ready to build a joint nuclear plant with its Arab neighbours but Jordan flatly rejected the proposal, saying it was premature to discuss such co-operation without first settling the Palestinian conflict.

"Nuclear energy can be an area of regional cooperation with the objective of promoting peace," Israeli Infrastructure Minister Uzi Landau told the Paris conference.

Syria, which has been investigated by the UN nuclear watchdog over its alleged attempt to build a secret nuclear reactor, also said it would like to develop atomic energy.—Internet

Denmark's coast hits by oil pollution

STOCKHOLM, 10 March— The northwestern coast of Denmark has been hit by oil pollution, according to reports reaching here from Copenhagen on Tuesday.

The oil slick is about two metres wide and 30 kilometres long with various thickness along the west coast of Northern Jutland in Denmark, said the Danish daily *Politiken*. Jutland forms the mainland part of Denmark. It has the North Sea to its west and the Baltic Sea to its east. "This is quite a major pollution event," Environment expert Viggo Larsen was quoted as saying by *Politiken*, adding that Admiral Fleet Denmark (SOK), which patrols Danish waters for signs of vessels that may leak oil or jettison tanks reported no suspicious vessels.—Xinhua

Nine al-Qaeda members killed in drone attack in Pakistan

ISLAMABAD, 10 March — Nine al-Qaeda members have been killed in a US drone attack in Pakistan's North Waziristan, local TV channels reported on Tuesday.

A suspected US drone on Monday night fired five missiles against a hotel near Miranshah, the headquarters of North Waziristan, killing at least nine persons and injuring several others.

Initial reports on Monday suggested that five missiles were fired hitting a compound in Malay Khan Serai area.

The private ARY News reported that the target of the attack was a hotel in the area where a meeting of al-Qaeda members was being held.

In the attack nine persons were killed, including six Arabs, two Uzbeks and one Pakistani.

Toyota to expand recall of Tundra pickups for rust

WASHINGTON, 10 March — Toyota said Tuesday it will expand a recall announced last year to fix Tundra pickup trucks with frames that could rust and lead to spare tires falling from the vehicle.

Toyota spokesman Brian Lyons said the recall will cover Tundra pickups from the 2000-

2003 model years in all 50 states.

It would broaden a recall announced in November that covered 110,000 trucks in 20 "cold weather" states and the District of Columbia.

Lyons said dealers

were notified of the expanded recall on Tuesday but he did not immediately know how many additional trucks would be covered. He said Toyota would provide more details.

Internet

US, Russia resume talks on reducing nuclear arsenals

GENEVA, 10 March— Negotiators from the United States and Russia on Tuesday resumed talks aimed at reaching a new nuclear arsenals reduction agreement to replace the 1991 START treaty, diplomatic sources said.

The talks were resumed at the US diplomatic mission to the United Nations Office in Geneva. Like previous rounds of talks, negotiators were meeting behind

closed doors and no news conferences were scheduled.

The two sides have been trying since last May to negotiate a new nuclear arms reduction deal as part of their efforts to "reset" relations between the two countries.

The new deal was supposed to replace the old START treaty (Strategic Arms Reduction Treaty), which was signed in 1991 and led to major reduc-

tions in the US and Russian nuclear arsenals at the end of the Cold War.

But the negotiators had missed an original target to reach a new deal before the expiry of START, which was on 5 Dec, 2009. According to Russian Foreign Minister Sergei Lavrov, "there are chances" that the negotiations could be concluded in two to three weeks.

But "there are no artificial deadlines," he told reporters in Moscow.

Xinhua

Campus shooting kills one, wounds two in Ohio

WASHINGTON, 10 March — Campus officials said on Tuesday a shooting killed one worker in Ohio State University in Columbus. Two people were wounded, including the suspect, who was in custody.

Campus police chief Paul Denton told reporters the suspect was a university employee, who fired on co-workers in a campus maintenance building on Tuesday, killing one, wounding another. The suspect was also wounded. No students were injured. The two wounded were taken to university medical centre for treatment. One of them was in critical condition, and the other was stable.—Xinhua

Medvedev calls for Silicon-Valley-like research centre

Moscow, 10 March—Russian President Dmitry Medvedev on Tuesday called for intensified efforts to establish a research and development centre similar to the Silicon Valley in the United States.

"I do not know if we can manage to build a Silicon Valley of our own, but the idea is to set up an innovative centre to do research and further commercialize its results," Medvedev was

quoted by Russian news agencies as saying at a meeting on preparations for the centre.

Medvedev instructed the government to choose the location of the prospective centre and to define its sources of funding and functions.

"Officially, we will call it a research and development centre. In fact, it will be a compound to facilitate the development of state-

of-the-art technologies," he said.

Medvedev added the centre would need to attract foreign experts to get the most out of it.

During an annual state-of-the-nation address last November, the President proposed setting up a research centre similar to Silicon Valley in order to put Russia on the track to an innovative economy.

Bangladesh to host regional climate change conference in May or June

DHAKA, 10 March—Bangladesh is going to host a regional conference on climate change in May or June in the capital Dhaka as part of the road to the next Conference of Parties (COP-16) in Mexico this year.

"We are very much interested to hold the conference but we are yet to fix the date formally," State Minister for Environment and Forests Hasan Mahmud was quoted as saying by leading English newspaper *The Daily Star* on Wednesday.

The European Union

has proposed to sponsor the conference, the minister said following a meeting with 12 EU ambassadors in the capital Dhaka on Tuesday.

South Asian Association for Regional Cooperation (SAARC) members and other countries will be invited to take part in the conference but names of countries have not yet been specified.

It is an initiative on the way to the COP-16 to keep the momentum of the activities to deal with climate change impacts, said Ambassador Stefan Frowein,

head of delegation of the EU to Bangladesh.

The meeting was to reflect on how to make the COP-16 a success in the light of achievements and unfulfilled aspirations at the COP-15 in Copenhagen, said the state minister.

The Bangladeshi government has kept an allocation of 7 billion taka (100 million US dollars) in the development budget of the current fiscal year (July 2009 to June 2010) from its own resource to combat climate change.

Pirates seize Kenyan-flagged fishing ship

NAIROBI, 10 March—Somali pirates have hijacked a Kenyan-flagged fishing vessel with 16 crew members onboard in the Indian Ocean off Somalia, a regional maritime official said on Tuesday.

Andrew Mwangura, the East Africa Coordinator of Seafarers Assistance Programme (SAP) said the *Sakoba* was taken last week but he received information on Tuesday.

"The fishing vessel was hijacked last week but we received information on Tuesday. It's not clear when the vessel was seized but it seemed it was in the Kenyan waters," Mwangura told Xinhua by telephone from Mombasa.

He said the vessel has 10 Kenyans, a Spanish

captain, a Polish chief engineer, two Senegalese, a Namibian and a citizen of Cape Verde. Reports said the ship was last registered in Spain three years ago. However, a statement from the European Union said the Kenyan-flagged fishing vessel was

hijacked 400 nautical miles (740 km) east of Dar Es Salam.

"The *Sakoba* is heading towards (the Somali coastal village of) Haradere and EU Navfor is continuing to monitor the situation," the statement said.—Xinhua

China's CFPA donates medical equipment to Sudan's BTO

KHARTOUM, 10 March—China Foundation for Poverty Alleviation (CFPA) on Tuesday handed over 110,000 US dollars' worth of medical equipment to Sudan's Al Birr and Al-Tawasul Organization (BTO).

The CFPA donation, including 12 sets of portable ultrasound diagnostic scanners, infant incubators, stainless-steel sterilizer and 500 pieces of solar and hand-winding electric charged torch-radios, was handed over to the BTO at a ceremony held at the Chinese embassy here on Tuesday.

The ceremony was organized by the Chinese embassy in cooperation with Sudanese Ministry of Health and Ministry of Humanitarian Affairs. CFPA Vice Secretary General Yang Qinghai, addressing the ceremony, said the first batch of the equipment had arrived in Sudan in February and would be distributed among 12 hospitals for women and children through the BTO.

"The CFPA will continue to strengthen the exchange and cooperation with the BTO and make more contribution in hospital- building and community development," he said. Chinese ambassador to Sudan Li Chengwen, for his part, said both CFPA and BTO were important NGOs devoted to humanitarian and charity work.—Xinhua

China to overtake US to become biggest camera market in 2015

TOKYO, 10 March—Canon, the world's biggest camera maker, expects China to surpass the US and become the world's largest camera market in 2015, company sources said on Wednesday.

Canon, well known for its EOS and PowerShot digital models, is doubling the number of outlets and boosting its marketing workforce in China to tap the company's fastest-growing major market, Canon's Chief Director of Image Communication Business Masaya Maeda said.

"The China market is very vibrant and will likely drive worldwide growth in the coming years," he said.

According to Maeda, Canon forecasts its sales will rise 10 percent in China this year.

Maeda reiterated the firm's projections in January that Canon's global camera sales will increase 6.6 percent to 25.7 million units and that China accounted for about 15 percent of Canon's camera sales in 2009.

Brazil expects US negotiation proposal to avoid trade war

BRASILIA, 10 March—The Brazilian government still awaits a US negotiation proposal about subsidies on US cotton producers to avoid trade sanctions, a Brazilian minister said on Tuesday.

Brazil and the United States have quarreled about US subsidies on its cotton producers, with

Brazil complaining the subsidies would harm Brazilian cotton producers' interests.

After meeting US representatives here, Brazil's Minister of Development, Industry and Foreign Trade Miguel Jorge said Brazil is still waiting for negotiation proposal about the issue from the

US side.

Dilma Rousseff, chief of staff of Brazilian President and US Secretary of Commerce Gary Locke attended the meeting.

Locke indicated the United States is not interested in a trade war with Brazil, neither is Brazil, said Jorge.

Peru sends helicopters to rescue stranded tourists

LIMA, 10 March—The Peruvian government on Tuesday sent two helicopters to rescue tourists stranded on the way to Manu National Park, some 1,300 km southeast of Lima.

Tourists and residents, who were stranded over the past few days after landslides cut off the road, will be evacuated by a police helicopter and an army helicopter, President of the Council of Ministers Javier Velasquez said.

The first helicopter, which departed at Tuesday noon, aimed to rescue the tourists and residents stranded at the airdrome of Kosnipata town, in the province of Paucartambo, Cusco Region. The second one was responsible for transporting food to the victims.—*Xinhua*

Two of oldest people in US die: in NH 114, Mich 113

Two of the oldest people in the world have died on the same day.

Mary Josephine Ray, who was certified as the oldest person living in the United States, died on Sunday at age

114 years, 294 days. She died at a nursing home in Westmoreland but was active until about two weeks before her death, her granddaughter Katherine Ray said.

"She just enjoyed life. She never thought of dying at all," Katherine Ray said. "She was planning for her birthday party."

Ray died just hours before Daisey Bailey, who was 113 years, 342 days, said L. Stephen Coles, a director of the Gerontology Research Group, which tracks and studies old people and certifies those 110 or older, called supercentenarians. "It's very rare that two of our supercentenarians die on the same day," Coles said.

This on 17 May, 2006 file photo shows Mary Josephine Ray during her 111th birthday party in Westmoreland, NH. She died on 7 March, 2010 in Westmoreland at age 114. The Gerontology Research Group says that until her death, Ray was the oldest person in the United States and the second oldest person in the world.

A young girl caresses her newly born animals outside her destroyed house in Okular village in the eastern province of Elazig, Turkey, on 8 March, 2010, hours after a strong earthquake, with a preliminary magnitude of 6, hit eastern Turkey early Monday, killing at least 57 people and knocking down houses in at least six small villages, the government said.

Chile quake moves city 3 metres

Preliminary measurements show the 8.8-magnitude quake which struck Chile last month shifted the entire city of Concepcion more than three metres to the west, and some other cities of South America were also displaced more or less, according to media reports on Tuesday.

Researchers from four universities and several agencies gathered readings at 25 GPS locator stations set up prior to the major quake and then compared them to readings taken 10 days later to come up with their preliminary numbers.

"By reoccupying the existing GPS stations, CAP can determine the

displacements, or 'jumps,' that occurred during the earthquake," said Mike Bevis, professor of earth sciences at Ohio State University.

"By building new stations, the project can monitor the postseismic deformations that are expected to occur for many years, giving us new insights into the physics of the earthquake process," he added.

The results show the Chilean city of Concepcion shifted 3 metres (10 feet) to the west.

Chile's capital Santiago was displaced about 27.7 centimeters (11 inches) to the west-southwest.

Cat, owner reunited after a year

A Massachusetts woman whose cat ran away nearly a year ago said the feline turned up in a foreclosed Boston home.

Addie Mathews, 19, of Lexington, said Sparky the cat ran away at the age of 7 months while she was visiting friends in Boston, the Boston Globe reported.

"There was no sign of him," she said. "I was just really hoping that someone had taken him in, because he's a really friendly cat."

Chu urges US companies to accept limit on carbon pollution

HOUSTON, 10 March—US Energy Secretary Steven Chu on Tuesday urged companies in the country to accept a limit on carbon pollution and meet the challenge with clean, renewable energy.

"We will live in a carbon-constrained world," Chu warned the participants at a key industry conference, sponsored by

IHS- Cambridge Energy Research Associates (CERA Week), which draws more than 2,000 energy professionals to Houston.

Chu reiterated his conviction that climate change is real, as global temperature data gathered between 1850 and 2006 prove "the climate is warming up."

He said that 55 percent of the oil used in the United States is imported, and the challenge is in what to replace it with.

Clean-burning natural gas, the Nobel Prize-winning physicist said, will serve as the bridge fuel to take the United States from a reliance on oil and coal to alternatives like solar and wind.

India allows conditional association with Copenhagen Accord

NEW DELHI, 10 March —India on Tuesday said it has allowed a conditional association with the Copenhagen Accord on climate change, after three months of deliberations, reported local newspaper *The Times of India* electronic edition on Tuesday night.

Indian environment minister Jairam Ramesh told the newspaper that India has "made the conditional association" with the UN Copenhagen Accord.

India has reiterated that the accord is meant to facilitate the ongoing negotiations in the two tracks of the UN negotiations and it is not a legally binding document. India has also demanded that all its conditions, including that the pact will not become a new track of negotiations or a "template for outcomes", be indicated in the Copenhagen Accord, said the newspaper.—Xinhua

Road accident in S Philippines kills nine, injures two

MANILA, 10 March — Nine people died and two others were injured when a dump truck slammed against a tree in north Cotabato in south Philippines on Wednesday dawn, local media reported. The victims were aboard a mini dump truck and on their way to Polomolok, South Cotabato when the accident took place in a village in Mlang around 4:15 am on Wednesday, Mlang Mayor Joselito Pinol said. One of the victims were thrown off the truck due to the strong impact. The bodies of the fatalities were brought to local funeral parlors in Mlang, he said.—Xinhua

Red Cross chief praises Chile's earthquake readiness

SANTIAGO, 10 March—The low death toll in Chile's 8.8- magnitude earthquake, as compared with the tolls in similar temblors elsewhere, speaks well of the readiness of Chile's government and people, Bekele Geleta, the secretary-general of the International Federation of Red Cross and Red Crescent Societies, said on Tuesday.

"The preparedness level of Chile's government and people saved lives," Geleta, who arrived in Chile on Sunday, told media in the Chilean capital Santiago. "Here there are rigid construction regulations. Modern buildings stood.

Old buildings that were not made for quakes are those that were destroyed."

More than 3,000 people unsheltered due to rain in Rio

BRASILIA, 10 March—At least six people were killed and 3,048 people were evacuated from their houses due to the strong rains that affected Rio de Janeiro on weekend, Rio de Janeiro State Civil Defence secretariat said on Monday.

On Saturday, the heavy rain lasted for about five hours in Rio de Janeiro and the rainfall amounted to 109.2 millimetres, an equivalent of the entire month of March 2009.

The rains led to two landslides in the metropolitan region where four people died, and in Niteori city where other two died.

The cities more affected by storm were Sao Gonzalo, in the metropolitan region of Rio de Janeiro, and Sao Pedro da Aldeia.

As many as 2,905 people were evacuated from Sao Gonzalo and other 102 from Sao Pedro. A major road in the state had been closed because a bridge was in danger of collapse, and the traffic was back to normal only on Monday.

Also the city of Saquerma in the lakes region between Janeiro River and Cabo Frio was affected.

Xinhua

Militant commander gunned down in Mogadishu

MOGADISHU, 10 March—A senior military commander close to Sheikh Dahir Aweys, a militant leader in Somalia was on Tuesday shot dead by unknown gunmen in the Somali capital Mogadishu, militant officials confirmed.

Bare Ali Bare, who was a senior commander with the militant group of Hezbul Islam, was shot dead as he walked in the main Bakara market of Mogadishu and the attackers escaped the scene, Ibrahim Bare Mohamoud, an official with Hezbul Islam confirmed to reporters in Mogadishu.

"We know that the commander was murdered by gunmen who escaped.

We are investigating the killing of Bare Ali Bare," Mohamoud told reporters.

Bare was critical of the rival Islamist group of Al Shabaab which it fought in a number of southern Somali Districts and has been vocal opponent of union between a faction within Hezbul Islam and Al Shabaab.

Intellectuals and intelligentsia—key...

(from page 1)

At the opening ceremony, the Prime Minister said that Shan State (North) had lagged behind in development in the past due to bitter experiences caused by insurgency. After taking the State responsibilities, the Tatmadaw government made utmost efforts to restore peace and stability in the region, construct roads and bridges and establish border trade. Therefore, the region gains development momentum.

The Prime Minister pointed out that it is necessary not only to turn out human resources but also to carry out construction of roads and bridges and establishment of businesses with a view to ensuring long-term devel-

opment of a region. Therefore, he noted that Arts and Science Universities, Universities for Computer Studies and Technological Universities in Taunggyi, Panglong, Kengtung and Lashio of Shan State for enabling the local youths to pursue higher education in their respective regions. The students, on their part, are to take full advantage of the facilities.

He continued to say that the national goal of the State is to build a peaceful, modern and developed nation. In this regard, it is necessary to build the modern and developed nation with the strength of intellectuals and intelligentsia. Therefore, the role of university students is of vital importance for develop-

Prime Minister General Thein Sein visits University of Computer Studies (Lashio).—MNA

ment of the nation.

The Prime Minister said that today's university students are to join the various works after receiving degrees. As the students will engage in the private businesses or private companies or will discharge duties of government service, they must have skills in the respective fields.

The Prime Minister urged the faculty members to teach their pupils to produce students well-versed in their chosen subjects and the students to pursue education for achieving efficiency. As such, they will show off their brilliant skills in their works. The Prime Minister stressed the need for the students to

try hard in learning education.

He said that the State needs many able and good citizens.

The Prime Minister said that an able person is the one who is skillful in his profession and the good person means those who have discipline, good morale and genuine nationalistic spirit. Only when the country has many able and good intellectuals and intelligentsia will the modern and developed nation be built in a short period. If the youths want to see Myanmar as a developed nation, they should uplift their efficiency themselves to become able and good persons.

a Myanmar must not be a stooge of any alien nation or a spy of aliens, he said.

Afterwards, Minister

U Thaung explained facts about the opening of Universities of Computer Studies and Technologi-

cal Universities in 24 development regions under the guidance of the Head of State in order to turn out

technical and technological human resources that play an important role in the development, sending scholars abroad to have high qualified teachers and teaching with international-standard syllabus.

Afterwards, Master's degree course students Maung Ye Phone Aung of the university spoke

words of thanks.

The Prime Minister cordially greeted faculty members and met students learning at internet room, hardware lab, research and development department and language lab.

The Prime Minister and party cordially greeted faculty members and students.

Special train put into service from commercial hub to archaeological center

YANGON, 10 March— For every convenience of globetrotters and local pilgrims eager to visit ancient cultural region while enjoying the service of modern facilities, the Ministry of Rail Transportation and the Ministry of Hotels and Tourism jointly organized the inaugural running of the Yangon-Bagan special train of Myanma Railways at the No (1) Platform of Yangon Central Railway Station this evening.

Deputy Minister for Rail Transportation Thura U Thaung Lwin and offi-

cials inspected the special train and presented gifts to passengers who were going to take the train to Bagan.

The 61-up Yangon-Bagan special train leaves Yangon Central Railway Station at 4 p.m. and arrives at Bagan Railway Station at 8 a.m. the following day. The 62-down Bagan-Yangon special train leave Bagan Railway Station at 8.30 a.m. and arrives at Yangon Railway Station at 4.30 p.m. the same day.

The train has second class coach, upper class

coach and sleeper coach. The sleeper coach (special-1) is a compartment with toilet-added air-conditioned four four-bed rooms. The sleeper (special-2) has toilet-added air-conditioned four four-bed rooms in addition a bathroom and a pantry is on each room.

The air-conditioned upper class coach has a seating capacity of 40. There are two second class coaches and each has a seating capacity of 62. Besides, the special train has a moving restaurant.

Booking can be

made at economic department of Myanma Railways Head Office in Nay Pyi Taw, passenger department and at the office of Head of Railway Station in Yangon, and tickets are available at the booking counters in Yangon Railway Station and Bagan Railway Station.

Rail fare for a foreigner is US\$ 50 for sleeper, US\$ 40 for upper class and US\$ 30 for second class.

Sleeper costs K15000, upper class, K 12000 and second class, K 3000 per local passenger.

Orientation for SPED officials

NAY PYI TAW, 9 March— The opening ceremony of Refresher Course No (9) for Staff Officers of the Sports and Physical Education Department took place at the hall of the Institute of Sports and Physical Education (Mandalay) yesterday morning with an address by Minister for Sports Brig-Gen Thura Aye Myint.

A total of 50 trainees are taking the four-week course.

It was also attended by Chairman of Mandalay Division Peace and Development Council Commander of Central Command Maj-Gen Tin Ngwe, Mandalay Mayor Brig-Gen Phone Zaw Han, officials, course instructors and trainees.

Next, the minister addressed work coordination meeting for 2009-10 academic year at the meeting hall of the institute. After hearing reports on tasks to be done and trainings being given at the institute presented by the principal, the minister made concluding remarks.

Objectives of 65th Anniversary Armed Forces Day

1. To uphold Our Three Main National Causes at risk to life as the national policy
2. To work hard with national people for successful completion of elections due to be held in accordance with the new constitution
3. To crush internal and external subversive elements through the strength and consolidated unity of the people
4. To build a strong, patriotic modern Tatmadaw capable of safeguarding the sovereignty and territorial integrity of the nation

Bago Bridge construction project shaping up

YANGON, 10 March — As part of the drive for better transport in all parts of the nation, construction and upgrading of roads and bridges are underway with added momentum.

On his arrival at worksite of Bago Bridge construction project on Yangon-Taungtha-Mandalay Road in Bago

on 6 March, Minister for Construction Maj-Gen Khin Maung Myint gave necessary instructions and attended to the needs.

The 360-foot long bridge has 72-foot wide six-lane motorway with six-foot wide pedestrian each on both sides. It is of broad crest type with iron truss and it can withstand 60-ton load.—MNA

18th Tatmadaw (Army, Navy and Air) Military Band Contest concludes

Chief of Armed Forces Training Lt-Gen Hla Htay Win awards third prize winning band of Eastern Command.—MNA

NAY PYI TAW, 10 March — The ceremony to conclude the 18th Tatmadaw (Army, Navy and Air) Military Band Contest to mark the 65th Anniversary Armed Forces Day was held in conjunction with the prize-giving ceremony at the parade ground of Ywadda Transit Center here this morning, attended by Chairman of the Leading Committee for Observance of the 65th Anniversary Armed Forces Day Chief of Armed Forces Training Lt-Gen Hla Htay Win.

Among the attendees were Commander of Nay Pyi Taw Command Maj-Gen Wai Lwin, Vice Adjutant-

General Maj-Gen Hla Shwe, senior military officers of the Ministry of Defence and departmental officials.

First Lt-Gen Hla Htay Win took the salute of the military bands.

Next, the band parade followed in procession.

Lt-Gen Hla Htay Win presented shields to military bands representing Yangon Command, Central Command and Eastern Command who stood first, second and third places in the contest and enjoyed the entertainments of award-winning bands.

Work coord meeting for National Immunization Days-2010 held

Deputy Minister for Health Dr Mya Oo speaking at coordination meeting of organizing region-wise National Immunization Days-2010.

MNA

NAY PYI TAW, 10 March—A work coordination meeting for organizing region-wise National Immunization Days-2010 was held at the meeting hall of National Health Committee of the Ministry of Health here this morning.

Deputy Minister for Health Dr Mya Oo said in his address that the Health Ministry is implementing tasks as a national level on regular vaccinating infants against seven diseases which are protected by vaccinating. In Myanmar, tasks for immunizing the infants against diseases have been carried out since 1978. Work programme for holding the National

Immunization Days-2010 will be arranged by two times apart. Under 5-year infants numbering 2.23 million from 81 townships of 11 states and divisions will be given extra polio immunization on 3 and 4 April for first time and on 1 and 2 May for second time. He continued that upholding the national spirit, ministries, NGOs, social organizations and well-wishers are in need of cooperation with the Health Ministry to succeed in programme implemented by the ministry. Before concluding the meeting, officials concerned reported matters relating to achievement for National Immunization Days-2010.—MNA

People reminded not to believe destructionist-generated rumours

NAY PYI TAW, 10 March — To disrupt the stability of the State, to cause a state of panic among the public and unrest in the country, destructionists have stepped up sabotage acts and spread rumours in the country.

On 25 February, a motorcyclist spread rumour in Shantegyi Village and Laydaukkan Village in Dagon Myothit (South) Township that employees of Yangon Pan Pacific garment factory in Thingangyun Township were taken to hospital due to food poisoning at the garment factory. Around 100 relatives of the factory workers went to Thingangyun Sanpya Hospital to make enquiry about the news. When they knew that there was no food poisoned patients, they proceeded to the garment factory. They went back as responsible personnel of the factory explained that there was no problems including food poisoning in the factory and the personnel also allowed the relatives to meet the employees. Because of widespread rumours, relatives of other workers gathered at the garment factory and the responsible personnel explained the true situation of the factory.

Similarly, on 26 February, a trishaw man spread rumour in Myaungdaga Village that some employees of Daewoo Garment Factory in Mingaladon Township were injured and some were taken to hospital as the ferry they were riding overturned. Due to the rumour, the garment factory received calls from relatives of the employees and some gathered at the factory to make enquiry about the rumour. There was no accident of any ferry and employees were working peacefully there.

The same day, a motorcyclist spread rumour in Nyaungtathan and Thayetpinchaung villages in Hlegu Township that the Daewoo garment factory was experiencing a problem from contaminated water at the factory. Responsible personnel of the factory denied the rumour when some relatives of the employees made enquiries at the factory and explained the true situation.

Authorities concerned have urged people not to allow themselves to be swayed by rumours as destructionists have stepped up spreading rumours to cause unrest, instability and panic among the people, especially among the mass of workers, and to give information to the authorities when they see those who spread rumours among the people.—MNA

An oil exploration tower is pictured in Tonya on the Ugandan shore of Lake Albert. East Africa has become a promising new frontier for oil exploration and major multinationals are jostling for the rights to search for black gold, industry experts said—INTERNET

East Africa new frontier for oil exploration

HOUSTON, 10 March—East Africa has become a promising new frontier for oil exploration and major multinationals are jostling for the rights to search for black gold, industry experts said.

“There are still large areas which are essentially unexploited and major efforts are needed in East Africa,” Tiziana Luzzi-Arbouille, an African specialist with IHS Global Insight said at the

CeraWeek energy conference in Houston, Texas.

While the Atlantic coast of Africa — most notably Nigeria and Angola — has long been exploited by western oil companies, it took decades for the industry to turn its sights to the east.

Things changed in 2006 with the first significant discovery in Uganda, in the Lake Albert basin. Since then

another 15 sites have been confirmed, said Luzzi-Arbouille, who estimated Uganda’s petroleum reserves at around 700 million barrels.

“What happened in Uganda made it easier for smaller companies to raise funding,” said Tewodoros Ashenafi, head of Southwest Energy, an Ethiopian company exploring in that country’s Ogaden basin.

Authorities in California wooing China BYD automaker

LOS ANGELES, 10 March—China automaker has made headlines in California as it is considering locating its US office and assembly line in the state, local media reported on Tuesday.

The office and assembly line are expected to create high-paying jobs in a state hard-hit by the recent recession.

The Chinese automaker BYD, or Build Your Dreams, may really

build a dream in California after it has teamed up with German automaking giant Daimler-Benz to manufacture an A-class electric vehicle.

As one of the world’s largest rechargeable battery and consumer electronics makers, BYD entered the US market this year with its electric car model BYD F6DM through the North American International

Auto Show in Detroit.

The first batch of such cars is to hit markets in Europe, the United States and China as early as next year.

Morale-boosted by the BYD intention, local authorities from both the Los Angeles County and Los Angeles City reportedly met BYD executives to woo the firm to locate its office and assembly line on their premises.

Global recovery to boost 2010’s FDI inflow in Philippines

CEBU CITY, 10 March—The inflow of foreign direct investments to the Philippines is expected to be higher this year as the global recovery boosts investor confidence.

“There should be an upward drift in FDIs this year relative to 2009,” Philippine Central Bank Officer-in-Charge Diwa Guinigundo said at the sidelines of the Financial Education Expo being held here.

FDIs in 2009 rose by 26.2 percent to 1.9 billion U.S. dollars. This compared with the 2008 FDI that hit only 1.5 billion US dollars, boosting optimism even more should flow inward this year.

“We’re looking at more vigorous inflows of FDIs this year. I think the mining sector will con-

tinue to be the most promising industry,” Guinigundo said.

The Philippine Mines and Geosciences Bureau has projected that investments in the local mining sector for 2010 could reach as much as 1.42 billion dollars, from an estimated 627.84 million US dollars in 2009.

Gunigundo said the business process outsourcing industry, which generated between 6 billion to 7 billion dollars last year, may bring in some 12 billion dollars this year. Guinigundo recalled investor sentiment on emerging markets like the Philippines was quite unfavourable in 2009 due to the global downturn.

Xinhua

China’s foreign trade up 45.2% in February

BEIJING, 10 March—China’s foreign trade posted a 45.2 percent growth in February 2010 year on year, the General Administration of Customs announced on Wednesday.

Exports in February stood at 94.52 billion US dollars, up 45.7 percent, while imports rose 44.7 percent to 86.91 billion US dollars.—Xinhua.

In this photo taken on 5 March, 2010, a truck runs at Yangshan deep-water port in Shanghai, China. China’s exports rose in February in a new sign of growing global demand that could help persuade officials to let the Chinese currency rise. Exports were up 45.7 percent in February over a year earlier, the Chinese Customs agency reported on Wednesday, beating analysts’ forecasts of 35 to 40 percent growth. Imports surged 44.7 percent, the agency said, reflecting growing demand in China as it emerges from the global crisis.—INTERNET

Japan’s machinery orders fall 3.7% in January

TOKYO, 10 March — Japan’s private sector machinery orders decreased a seasonally adjusted 3.7 percent in January from a month earlier to 723.8 billion yen (8.05 billion US

dollars), according to a report released by the Cabinet Office on Wednesday.

The total value of machinery orders received by 280 manufacturers operating in Japan fell by 3.7 percent in January from the previous month on a seasonally adjusted basis.

In the manufacturing sector, orders increased by 3.3 percent for the month, while the nonmanufacturing sector saw a decrease of 12.9 percent in demand. Orders from overseas also fell in January by 8.8 percent, while there was a 20.8 percent rise in the number of orders from governments in January. The Cabinet Office forecast orders will rise 3.5 percent in the three months ending on 31 March, in a further sign that the nation’s tentative economic recovery may be gaining strength.—Xinhua

Developing countries biggest victims of climate change

BEIJING, 10 March—Developing countries are the biggest victims of climate change, Xie Zhenhua, vice minister of China's National Development and Reform Commission, said on Wednesday.

Xie, one of China's leading negotiators for climate change talks, made the remarks at a press conference on the sidelines of the annual session of the National People's Congress, the country's top legislature.

Developed countries are mainly responsible for the climate change, which is caused by increasing greenhouse gas emission in their process of industrialization in the past 100 to 200 years, he said.

Xie called for joint efforts from all countries involved to take positive measures to combat climate challenge.—Xinhua

S Korea-EU FTA likely to be inked by end-April

SEOUL, 10 March—South Korea seeks to reach the final stage of sealing a free trade agreement (FTA) with the European Union by the end of April, the trade minister said on Wednesday.

"We are aiming at formally sealing the deal in end-April, which we are now in discussion with the EU board directors," Lee Hye-min, Seoul's Deputy Minister for Trade, said in a Press briefing.

Lee, scheduled to fly to

Paris on Friday for a meeting with his EU counterpart, Ignacio Garcia Bercero, where he is to fix the date.

"At the moment my goal is to confirm the exact date to sign the contract at the Paris meeting, but there may be contingencies and there is a possibility the signing process will be delayed one or two weeks," Lee added.

According to Lee, the meeting will be followed by talks between South

Korean Trade Minister Kim Jong-hoon and EU Trade Commissioner Karel de Gucht on Monday. Wrapping of two-year-long negotiations, South Korean and the EU initiated the final text of the trade deal in October this year.

The agreement needs to be approved by South Korea's National Assembly and the heads of the EU's 27-member states before taking effect.

Xinhua

US-born capo, drug lord's brother fight for cartel

MEXICO CITY, 10 March—Authorities say a US-born hitman is fighting the brother of a deceased drug lord for control of the Beltran-Leyva cartel, marking what may be the first time an American has risen to the very top ranks of Mexican

gangs. Ramon Pequeno, head of the anti-narcotics division of Mexico's federal police, said on Tuesday that Texas-born Edgar Valdez Villarreal, nicknamed "La Barbie," is battling Hector Beltran Leyva for control of the Beltran Leyva cartel.

"Right now it appears there is an internal dispute for control of the organization," Pequeno said. "On one side is La Barbie and on the other side is Hector Beltran, the natural heir of the organization."

Pequeno said the battle was unleashed when cartel leader Arturo Beltran Leyva died in a shootout with Mexican marines in December. Both men are apparently carrying out killings in bids to take control of the gang, one of Mexico's most powerful.

A previous top drug lord, Juan Garcia Abrego, was expelled to the United States in 1996 for purportedly being a US citizen. But he appeared to have lived all his life in Mexico and reports have raised doubts about whether he was born in Texas, as one birth certificates states.

Valdez Villarreal was born in the border city of Laredo, Texas, and has built a reputation as one of the most brutal enforcers employed by Mexican drug gangs.—Internet

Malaysian turtles face extinction

KUALA LUMPUR, 10 March—Conservationists warned on Wednesday that Malaysians' voracious appetite for turtle eggs could drive the marine creatures to extinction on its shores.

Turtle eggs are sold openly in markets in parts of Malaysia. Turtles once arrived in their thousands to lay eggs on Malaysian beaches, but are now increasingly rare due to poaching and coastal de-

velopment.

Environmental group WWF released a report saying that hundreds of thousands of turtle eggs

are eaten in Malaysia every year, despite campaigns to get them off the menu.

Internet

A green sea turtle hatchling is pictured swimming in a tank at the turtle conservancy section of Aquaria KLCC in Kuala Lumpur.

Cambodia to preserve Khmer Rouge sites for tourism

PHNOM PENH, 10 March—Cambodia will preserve 14 sites at the last bastion of the murderous Khmer Rouge, including the home of their leader Pol Pot, as tourist attractions, an official said on

Wednesday.

Following Cabinet approval last week, the sites at Anlong Veng will be protected from destruction by local people and illegal encroachment, the area's district chief Yim Phana said. Anlong Veng, about 185 miles (300 kilometres) north of Phnom Penh, fell to government forces in 1998 after nearly 20 years of fighting.

The Khmer Rouge re-

gime, under which an estimated 1.7 million people died from execution, disease and malnutrition, was toppled in 1979 but its guerrillas fought on in the jungles, with Anlong Veng becoming their last stronghold. Yim Phana said the 14 sites include homes belonging to Khmer Rouge leaders, an ammunition warehouse and the grave of Pol Pot, who died in 1998.—Internet

The villagers here had no tap water for 50 days because of severe drought. The scope and intensity of the drought in Guizhou since last July broke the record of the extreme weather in history.—XINHUA

Depression, relational uncertainty linked

CHAMPAIGN, 10 March — Those with more severe depressive symptoms report more relationship distress, US researchers found.

Twin sisters Leanne Knobloch of the University of Illinois and Lynne Knobloch-Fedders of The Family Institute at Northwestern University said more than three decades of research has shown that people with depression are less satisfied in their romantic relationships.

Relational uncertainty is a term to describe how sure individuals are about their perceptions of involvement in a relationship. It has three sources, the researchers said.

The researchers said self uncertainty is the question people have about their own relationship involvement, such as,

"how certain am I about my view of this relationship?" Partner uncertainty involves questions about a partner's relationship involvement, such as, "how certain am I about where my partner wants this to go?"

Finally relationship uncertainty involves questions about the relationship status, such as, "how certain am I about the future of this relationship?"

The study found those with more severe depressive symptoms reported more relationship distress, people experiencing more relational uncertainty were less satisfied with their relationship, and women's depressive symptoms predicted all three sources of their relational uncertainty, which in turn predicted both men's and women's relationship quality.—*Internet*

Teach self-control, improve kids' behaviour

ROCHESTER, 10 March — Children taught skills to monitor and control their anger and emotions improved their classroom behaviour, US researchers found.

The study, published in the *Journal of Abnormal Child Psychology*, found children in a school-based mentoring programme were about half as likely as others to have any discipline incident during the 3-month period of the study.

Lead author Peter Wyman, an associate professor of psychiatry at the University of Rochester Medical Centre, said those children had a 43 percent decrease in mean suspensions as compared to the control group, which did not receive mentoring of the self-control skills.

In the 4-month interval after the intervention began, 1.8 percent of children in the mentored group were suspended, compared to 6.1 percent of the control group. Children taught the new skills had a 46 percent decrease in mean office disciplinary referrals as compared to the children in the study's control group, the study said.

Self-control and reducing escalation of emotions is taught through the concept of a "feelings thermometer" to depict intensity, Wyman said.

Children learn to use "mental muscles" as a tool to monitor feelings and to stop feelings from entering a hot zone. They also learn to maintain control and regain equilibrium through strategies such as taking a deep-breath, stepping back from emotionally intense situations and using an imaginary umbrella as protection from hurtful words.

Diabetes drug effective if taken early

PORTLAND, 10 March — The sooner people with diabetes take the generic drug Metformin that helps prevent high blood sugar levels, the longer it is effective, US researchers said.

Lead author Jonathan B Brown, an investigator with the Kaiser Permanente Centre for Health Research in Portland, Ore., said Metformin is recommended as a first-line agent in the treatment of

type 2 diabetes, but in most patients it eventually stops working, forcing them to take additional medications to control their blood sugar.

"This is an important finding for the 30 million people worldwide who are diagnosed with type 2 diabetes every year," Brown said in a statement.

"The sooner they start taking Metformin, the better and longer it seems to work."

Researchers used elec-

tronic health records to track nearly 1,800 people with diabetes in Kaiser Permanente's health plan in Washington and Oregon for up to five years.

The study, published in *Diabetes Care*, found Metformin failed at a rate of 12 percent a year for the patients who began taking it within three months of diagnosis, but failed 21.4 percent per year for patients who started taking it 1-2 years after diagnosis.—*Internet*

Maybe no radiation for early breast cancer

ST LOUIS, 10 March — US researchers say early-stage breast cancer patients may not need radiation after a mastectomy. Researchers at the University of Texas M.D. Anderson Cancer Centre in Houston found low overall risk of recurrences for patients receiving surgery followed by chemotherapy — whether there was no spread to axillary lymph nodes or there was spread to one to three lymph nodes.

"This research will provoke much discussion among those caring for women with early-stage breast disease. Replicating these findings should be a priority to ensure that patients only receive therapy that is medically necessary," senior author Dr Henry Kuerer said in a statement.—*Internet*

A glass of wine may help keep weight down

BOSTON, 10 March — Women who are normal weight and consume no more than two drinks a day may gain less weight than those who do not drink, US researchers say. Dr Lu Wang of Brigham and Women's Hospital in Boston and colleagues studied 19,220 US women age 39 or older who had a body mass index within the normal range 18.5-25.

Participants reported

how many alcoholic beverages they typically drank per day: 38.2 percent reported drinking no alcohol, 32.8 percent drank less than 5 grammes, 20.1 percent drank 5 to less than 15 grammes, 5.9 percent drank 15 to less than 30 grammes and 3 percent drank 30 grams per day or more. Alcohol contains about 7 calories per gramme — or approximately 28 grams per

ounce.

After an average 13 years of follow-up, women who did not drink alcohol at all gained the most weight, with weight gain decreasing as alcohol intake increased. Compared with women who did not drink at all, those who consumed some but less than 40 grammes per day of alcohol were less likely to become overweight or obese.—*Internet*

Wenger eyes revenge mission against old rivals

LONDON, 10 March—Arsenal manager Arsene Wenger admits he would love the chance for a revenge mission against Manchester United or Chelsea in the Champions League quarter-finals.

Wenger's side swept into the last eight with a majestic 5-0 victory over Porto at the Emirates Stadium that sealed a 6-2 aggregate triumph in the second round tie.

Nicklas Bendtner was the Gunners' hero with the first hat-trick of his career, but sublime displays from Samir Nasri, who scored a brilliant solo goal, and Andrey Arshavin put Wenger in unusually fiery form after Tuesday's match.

Winning in such style without captain Cesc Fabregas, key defender William Gallas and star forward Robin van

Bayern lose but scrape past Fiorentina on away goals

Bayern Munich's Dutch striker Arjen Robben celebrates after scoring against Fiorentina during their last 16 Champions League second leg football match in Florence's Artemio Franchi Stadium.—INTERNET

FLORENCE, 10 March—Bayern Munich booked their place in the quarter-finals of the Champions League on Tuesday despite losing 3-2 to a valiant Fiorentina in a topsy-turvy encounter at the Artemio Franchi stadium.

The German side, who had won 2-1 in Munich,

went through on the away goals' rule after the aggregate scores finished 4-4.

In the end, Miroslav Klose's controversial 89th-minute goal in the first leg, which replays showed was yards offside, proved decisive.

"We've been eliminated thanks to the collusion of referee (Tom) Ovrebo in the away leg," complained Fiorentina president Andrea della Valle.

"It's tough to go out after winning 3-2 even without thinking about the first leg. But Florence can be proud of the way that Fiorentina played this evening."

Bayern coach Louis Van Gaal could understand his rival's sentiments.

"I can understand that it's hard for Fiorentina because Klose's off-side goal in the first leg proved decisive," he said.

Internet

Pompey rock bottom while Sunderland savour victory

LONDON, 10 March—Crisis club Portsmouth remained four points adrift at the foot of the English Premier League as Birmingham City gained revenge on their FA Cup conquerors with a 2-1 win at Fratton Park on Tuesday.

Portsmouth, the 2008 FA Cup winners, beat Birmingham 2-0 at their south coast home on Saturday to reach the last four of this season's edition thanks to two goals from Frederic Piquionne.

But there was no repeat performance as Birmingham moved up to eighth in the table thanks to a double from striker Cameron Jerome.

Nwankwo Kanu, who scored Portsmouth's winning goal in their FA Cup final win over Cardiff two years ago, pulled a goal back in stoppage-time but it came too late to prevent victory for the visitors.

"We were well up for it," said delighted Birmingham manager Alex McLeish. "We spoke before the game about how Pompey might have thought our confidence has dropped and that we didn't have much more to play for this season and we responded brilliantly."

Kashima win AFC Champions League clash

SINGAPORE, 10 March—Kashima Antlers won the clash of East Asia's titans on Tuesday with a dramatic 2-1 AFC Champions League win over Jeonbuk Motors, while Beijing Guoan dug deep to beat Kawasaki Frontale.

J-League champions Kashima came from behind to beat their K-League counterparts, with Koji Nakata and Yasushi Endo doing the damage.

Jeonbuk, who won the AFC crown in 2006, opened the scoring four minutes before half-time through their Brazilian star Eninho, who made the most of his chances after being put through by Lee Dong-Gook. Nakata struck the equaliser in the

Henin, Clijsters look to shake things up at Indian Wells

INDIAN WELLS, 10 March—Former world number ones Justine Henin and Kim Clijsters of Belgium will provide some early headaches for top seeds at the WTA Indian Wells tournament which begins Wednesday.

The 4.5 million-dollar event, played in conjunction with an ATP event that starts Thursday, also could see a potential third-round rematch of last year's final between defending champion Vera Zvonareva and 24th seed Ana Ivanovic.

With 32 seeds receiving first-round byes, the early star of the show figures to be Henin, the 27-year-old who lost to Serena Williams in the Australian Open final and

US Open champion Clijsters at the Brisbane final.

Henin, who won at Indian Wells in 2004, opens against Slovakia's Magdalena Rybarikova and if she advances will face 31st-seeded Gisela Dulko of Argentina for a possible third-round encounter with fifth seed Agnieszka Radwanska of Poland.—Internet

Pienaar gets drunk-driving ban

LIVERPOOL, 10 March—South Africa star Steven Pienaar was banned from driving for

South Africa star Steven Pienaar, pictured in January 2010, was banned from driving for 12 months by a British court on Tuesday after pleading guilty to a drunk-driving offence.—INTERNET

12 months by a British court on Tuesday after pleading guilty to a drunk-driving offence.

The 27-year-old, a midfielder with English Premier League side Everton, was found to be nearly twice the legal limit after he was breath-tested by police in Liverpool.

Pienaar was stopped by police in the early hours of Sunday, 21 February, the day after Everton's 3-1 win over English champions Manchester United at Goodison Park. Merseyside Police found Pienaar had 61 micrograms of alcohol per 100ml of breath. The legal limit is 35 micrograms.—Internet

Romario runs into trouble with the law, again

RIO DE JANEIRO, 10 March—Soccer legend and current manager of the America soccer team, Romario had another unfortunate run-in with the law on Tuesday. The author of more than 1,000 goals was pulled over on suspicion of drunk driving.

Romario refused to comply with the police officer and did not blow into the breathalyzer to register if he had been drinking or not. In Brazil, there is a no tolerance policy on drinking and driving. Ironically, it is a citizen's right to decline to produce any sort of self-incriminating evidence.

The ex-striker and member of Brazil's third World Cup championship team, Romario quickly called a friend who came and drove his car home to his residence in the West Side of Rio de Janeiro. Romario was taken into custody in order to explain why he would not perform the breathalyzer.

As a punishment for his reckless behavior, Romario was fined nearly 500 US dollars and received seven points on his driver's license.

China's housing prices hit new high in February

BEIJING, 10 March.—China's property market grew at the fastest pace in 20 months in February, with housing prices rising at a double digit rate, despite the government's cooling-down moves, according to data released Wednesday by the National Bureau of Statistics (NBS).

Housing prices in China's 70 large and medium-sized cities increased 10.7 percent

in February from a year earlier, and were up 0.9 percent compared to the previous month, said the NBS.

Prices of new homes in February rose 13 percent year on year, up 1.3 percent from January, and were mainly pushed up by soaring home prices in Hainan Province as the state government decided to build the island into an international tourist resort in December.—Xinhua

All-round development seen in Kawhmu, Twantay Townships

Lt-Gen Myint Swe of Ministry of Defence views weeding at quality summer paddy plantation in Tawtho Village of Twantay Township.

MNA

YANGON, 10 March — Lt-Gen Myint Swe of the Ministry of Defence heard reports on progress of tarmacking of Hlinethaya-Dalla-Twantay motorway at the briefing hall of Road Construction Project Special Group (16) of the Public Works at the junction of Hlinethaya-Dalla-

Twantay motorway and No (5) Highway yesterday.

While inspecting the tarmacking of approach road of Pan Hlaing Bridge and junction of Hlinethaya-Dalla and Dalla-Twantay roads, preparation for construction of traffic island, durability of Twantay Bridge

and Kawhmu Township People's Hospital, he gave necessary instructions.

In meeting with trainees of Refresher Course for Promotion of Public Health Education at the hospital, he called for uplifting public health through collaborative efforts.

Next, Lt-Gen

Myint Swe looked into newly-built one-storey RC building for Kawhmu Township BEHS, construction of Tawa creek crossing bridge on

Twantay detour in Twantay Township and Myago-Maubin road and visited summer paddy farmland at Tawtho village and fish farm at Adun

village in the township.

After hearing reports on tasks for durability of Myago-Maubin road, Lt-Gen Myint Swe attended to the needs.—MNA
