Emergence of the State Constitution is the duty of all citizens of Myanmar Naing-Ngan.
For boosting production of oil and natural gas

Myanmar is rich in petroleum and natural gas and so the Ministry of Energy is trying to extend the exploration of these resources inland as well as offshore to meet domestic consumption and develop national economy.

In inland oil fields in Nyaungdon (middle area), Maubin and Pantanaw, old wells are being maintained and new wells are being drilled. Nyaungdon oil and natural gas field has very good prospects and produces more than 86 million cubic feet of natural gas and 732 barrels of condensate daily. The new well No 35 was recently drilled and it produces 7 million cubic feet of natural gas and 84 barrels of condensate daily.

Offshore oil fields such as Mottama block, Taninthayi Yedagun block and Rakhine Shwe block have also good prospects and foreign companies are exploiting oil and natural gas there in partnership with the government.

Companies from Russian Federation, India, Britain, Canada, China, Indonesia, South Korea, Malaysia and Thailand are exploring oil and natural gas in inland and offshore oil fields in Myanmar.

Myanmar Oil and Gas Enterprise and a Russian company signed an agreement on 9 November, 2006 to explore oil and natural gas in Yedagun east block along the Taninthayi coast on production sharing basis.

Myanmar is rich in natural resources and has good potential for production of oil and natural gas. Therefore, efforts should be made to boost production of oil and natural gas by extending exploration in inland and offshore oil fields.

Annan reiterates “zero-tolerance” toward sexual abuse by peacekeepers

UNITED NATIONS, 5 Dec—UN Secretary-General Kofi Annan reiterated on Monday his “zero-tolerance” attitude toward acts of sexual exploitation and abuse committed by UN peacekeeping personnel.

The Secretary-General made the remarks while addressing a high-level meeting being held here to discuss ways eliminating sexual exploitation and abuse.

“It is tragic and intolerable” that a small number of sexual abusers had undermined the contributions of the vast majority of UN staff and uniformed personnel, he said.

“They cause great harm to women and children who already face extreme hardship and violations in their daily lives. And they overshadow, in the eyes of the public, our many achievements,” he said.

“All of this is utterly immoral, and completely at odds with our mission,” he noted. “Even if it is only a few who take advantage of our positions of relative power in the countries where we operate, it is a few too many.”

While the UN had made concerted efforts to eradicate such acts, he admitted, the work has only begun to “address this egregious problem”, with acts of sexual exploitation and abuse by both civilian and uniformed United Nations personnel continuing to occur.

US Marine guilty of raping Filipina, three others acquitted

MANILA, 5 Dec—One of four US Marines accused of raping a Filipina in Subic last year was found guilty while three others were acquitted by a local court on Monday.

Lance Corporal Daniel Smith faces up to 40 years in prison following the verdict handed down by the judge of Makati regional trial court, according to a report by the Inquirer news network.

Smith was also ordered to pay 50,000 pesos (1,000 US dollars) in compensatory and 50,000 pesos in moral damages, said the report.

Meanwhile, the court acquitted Lance Corporals Keith Silkwood and Dominic Duplantis and Staff Sergeant Chad Carpenter for lack of evidence.

The judge ruled on the case 23 days before the one-year deadline under the Visiting Forces Agreement to finish the case or return the Marines to US jurisdiction would have expired.

“Nicole,” a court-appointed pseudonym, had accused Smith of raping her at the Subic Bay Freeport on 1 November, 2005 while the other three allegedly cheered him on.

The four Americans had just taken part in joint military exercises.

US ‘not winning conflict in Iraq’

LONDON, 6 Dec—US Defence Secretary nominee Robert Gates has told a Senate committee that the US is not winning the war in Iraq.

Mr Gates told a confirmation hearing he was open to new ideas on Iraq, but warned the situation there would shape the Middle East for years to come.

The committee approved him to replace Donald Rumsfeld, who quit last month amid criticism of his Iraq policy.

The next chairman of the panel said Mr Gates would face a monumental challenge if confirmed by a full Senate vote.

After the 21 senators on the committee unanimously approved Mr Gates, the Senate should vote by the end of the week, with approval widely expected.

Meanwhile, the court acquitted

Most Americans glad to see Rumsfeld’s resignation

WASHINGTON, 5 Dec—Most Americans are pleased that defence secretary Donald Rumsfeld has resigned, according to a latest poll.

The poll, released here by Harris Interactive on Monday, showed that 61 per cent of respondents were in favour of the resignation, while only nine per cent said it was a bad thing.

Meanwhile, the respondents seemed to have little confidence in Robert Gates, a former CIA director nominated by US President George W Bush to succeed Rumsfeld. Only 13 per cent believed Gates would make the situation in Iraq better.

Forty-two per cent said Gates would fail to make a difference and 40 said they were unsure.
Electorate concerned should have the right to recall a Hluttaw member who commits treason, violates any provision of the Constitution, commits misbehaviour, lacks qualifications

YANGON, 6 DEC— The following is the proposal submitted by the Delegate Group of Peasants on the detailed basic principles for the Chapters “Election”, “Political Parties” and “Provisions on State of Emergency,” to be included in the State Constitution at the Plenary Session of the National Convention at Nyuangonpin Camp in Hnausaw Division, Yangon Division yesterday.

Mr Chairman and members of the panel of chairmen, the chairman and members of the National Convention Convening Commission, the chairman and members of the NCC Work Committee, the chairman and members of the NCC Management Committee, and NC delegates, let me extend greetings to you and I wish you a success in serving the interests of the nation. I am NC delegate U Soe Naing from Maungnya Township, Ayeyawady Division.

Mr Chairman,

At the plenary session held on 30 and 31 October, the Work Committee chairman explained points for the Chapters “Election”, “Political Parties” and “Provisions on State of Emergency” to be included in the State constitution.

We members of the delegate group of peasants carried out a careful study of what the Work Committee chairman had explained and compiled a proposal. Now, we would like to present our proposal.

Mr Chairman,

The National Convention prescribed 15 chapters for the detailed basic principles of the State constitution. Of them, the Chapter “Election” says:

(a) Every citizen shall have the right to vote and to stand for election according to law.

(b) Voters concerned shall have the right, in accordance with provisions of the State Constitution, to recall elected people’s representatives.

The sphere of these two principles is broad. So, the National Convention has to adopt detailed basic principles for this chapter.

Mr Chairman,

Every nation exercising the multi-party democracy system must prescribe necessary basic principles in the State Constitution concerned to ensure that every citizen has equal right to vote and to stand for election in accord with the law.

The right to vote and stand for election covers all the citizens who are eligible to vote. In the process, firstly, it is required to fix the eligible age to vote. In accordance with the tradition of bestowing the right on every eligible citizen at the age of 18 to vote, the point:

“Every citizen who has turned 18 on the date on which elections commence, who is not disqualified by law, who is eligible to vote, and who has the right to vote under the law, shall have the right to vote.”

should be adopted as a detailed basic principle.

Mr Chairman,

Under the detailed basic principles adopted by the National Convention, Hluttaw members are to be elected to:

(a) Pyithu Hluttaw;

(b) Amyotha Hluttaw; and

(c) Region or State Hluttaw.

In electing members of the Pyithu Hluttaw and the Amyotha Hluttaw, at a constituency, a voter shall cast only one vote for a Hluttaw each at an election.

It is required to elect Hluttaw representatives of national races. So, those who are qualified by law will have to elect representatives township-wise to the Region or State Hluttaw. In addition, other than the national races who have already got the representative Region or State, the remaining national races that meet the requirements will have the right to elect representatives of national races to the Hluttaw concerned who will represent them.

Therefore, regarding the election of people’s representatives to the Hluttaw concerned, the point:

“Every citizen who is eligible to vote and who has the right to vote by the law shall cast only a vote for an Hluttaw each at a constituency.

“In addition, people of national races concerned who are eligible to vote in accordance with the provisions of the State Constitution shall have the right to vote in electing representatives of national races to the Region or State Hluttaw concerned.”

should be adopted as a detailed basic principle.

Mr Chairman,

Our country will have to exercise the multi-party democracy system. So, our country should practise ballot in electing people’s representatives.

Therefore, regarding ballot, the point:

“Ballot shall be exercised.”

should be adopted as a detailed basic principle.

Moreover, regarding restriction to give no right to vote to certain sorts of people, the point:

“The following persons shall have no right to vote—

(a) members of the Religious Order;

(b) persons serving prison terms;

(c) persons adjudged to be of unsound mind as provided for in the relevant law;

(d) persons who have not yet been cleared from being declared destitute;

(e) persons who are banned from voting under the election law.”

should be adopted as a detailed basic principle.

Mr Chairman,

In the interests of the electorate concerned, a candidate should stand for election at the constituency only he has already planned, rather than doing so again at another constituency.

It is found that in exercising the multi-party democracy system with flourishing discipline, a candidate should be permitted to stand for election at a constituency for a Hluttaw only.

So, the point:

“At an election, a candidate—

(a) shall be elected to one Hluttaw only.

(b) shall stand for election at one constituency only.”

should be adopted as a detailed basic principle.

Mr Chairman,

Some of the detailed basic principles the National Convention has laid down are connected with the delineation of the boundaries of Union territories. The Union territories will be under direct rule of the President, and the Pyidaungsu Hluttaw will have to prescribe necessary laws for Union territories. So, electorate of the Union territories do not need to elect Hluttaw members to the Region or State Hluttaw, and will have to elect Hluttaw members to the Pyithu Hluttaw and the Amyotha Hluttaw, the two legislative bodies of the Pyidaungsu Hluttaw.

Moreover, after a Region or State Hluttaw member from a township or constituency in a Region or State is elected, and that township or constituency is prescribed under extraordinary circumstances as a Union territory by the Pyidaungsu Hluttaw with respect to national defence, security, administration, and economic affairs, the said township or constituency will be under direct rule of the Union President.

In this regard, the Pyidaungsu Hluttaw is solely responsible for prescribing necessary laws for that township or constituency. And the Region or State Hluttaw no longer needs to prescribe necessary laws for that township or constituency. So, a Region or State Hluttaw member elected in that township or constituency should no longer stand as a Region or State Hluttaw member.

Therefore, regarding elections for Union territories, the point:

(a) Electorate living in the Union territories, or the Union territories designated by the Pyidaungsu Hluttaw under the law, shall elect members of the Pyithu Hluttaw and the Amyotha Hluttaw only.

(b) Save as otherwise prescribed by the Constitution, a Region or State Hluttaw member elected in a constituency that the Pyidaungsu Hluttaw has designated as a Union territory shall no longer stand as a Hluttaw member”

should be adopted as a detailed basic principle.

Mr Chairman,

An already-laid down basic principle on election has bestowed rights on every citizen to vote and stand for elections in accord with the law. Every citizen can enjoy such rights only when these rights are manifested in the Constitution. Therefore, the right of citizens to stand for elections, the point:

“Every citizen who is not disqualified by the provisions of this Constitution and the provisions of the law regulating elections shall have the right to stand for election to a Hluttaw”

should be adopted as a detailed basic principle.

Mr Chairman,

A Hluttaw member is the one on whom the people can place their reliance. Electorate concerned should have the right to recall a Hluttaw member who commits treason, violates any provision of the Constitution, commits misbehaviour, lacks qualifications prescribed in the Constitution for a Hluttaw member or is not capable of discharging his duties efficiently.

(See page 5)
Electorate concerned should...

(from page 4)

So, if the wish arises to recall a Hluttaw member, the complaint about the Hluttaw member endorsed by at least one percent of the initial number of the voters of the constituency concerned shall be submitted to the Election Commission. In the process, the Hluttaw member concerned should be vested with the right to rebut the accusation in person or through a representative.

After receiving such a complaint document, the Election Commission should conduct an investigation into the case in accord with the law. In the process, the Hluttaw member concerned should be vested with the right to rebut the accusation in person or through a representative.

If the commission finds the accusation true and considers that the Hluttaw member should no longer serve as a Hluttaw member, the commission should take action in accord with the law on recall.

Therefore, regarding the procedures on recall, the point:

“(a) A Hluttaw member may be recalled for any of the following reasons—
(1) treason;
(2) violation of any provision of the Constitution;
(3) misbehaviour;
(4) lack of qualifications prescribed in the Constitution for a Hluttaw member;
(5) incompetent discharge of duties.

(b) Complaint about the Hluttaw member endorsed by at least one percent of initial number of the voters of the constituency concerned shall be submitted to the Pyidaungsu Election Commission.

(c) Pyidaungsu Election Commission shall conduct investigation into the case in accord with the law.

(d) While the case is under investigation, the Hluttaw member concerned shall have the right to rebut the accusation in person or through a representative.

(e) The Pyidaungsu Election Commission shall, finding the accusation true and considering the Hluttaw member should no longer carry out duties, take action in accord with the law” should be adopted as a detailed basic principle.

Mr Chairman,

The Working Committee chairman in his clarification said that many countries have made the system of setting up a large constituency to elect more than one Hluttaw member, that many countries have made the system of setting up a big constituency to elect more than one Hluttaw member, or having a proportionality system.

So, to catch up with the global changes, necessary laws should be made to allow the Hluttaw member to enjoy representation in the election laws.

Therefore, regarding election and recall, the point:

“The Pyidaungsu Hluttaw shall prescribe necessary laws on election and recall.” should be adopted as a detailed basic principle.

Mr Chairman,

Our nation is going to exercise the discipline-flourishing democratic system, so elections for the Pyithu Hluttaw, the Amyotha Hluttaw, and the Region or State Hluttaw will be held from time to time, and tasks for holding elections will be carried out continuously. In addition, there will be many tasks such as formation of sub-commissions at different levels to supervise the work. Designation of constituencies in which the chairman and members of the Pyidaungsu Election Commission should have due qualifications. Having to carry out demanding tasks, such persons should be the ones who have served in the post of Union Chief Justice or Union supreme court judge, the Regional or State Hluttaw member.

Therefore, regarding the formation of Pyidaungsu Election Commission, the points:

“(a) The President shall form a Pyidaungsu Hluttaw Election Commission. In the process, he may appoint at least five members including the chairman of the Pyidaungsu Election Commission in accord with the provisions on appointment of Union minister stated in the Constitution.

(b) The chairman and members of the Pyidaungsu Hluttaw Election Commission shall be the ones who—
(1) have turned 50 years of age.
(2) meet, except age limit, requirements set for Pyithu Hluttaw members.
(3) (a) have served in the post of Union Chief Justice or Union supreme court judge; Region or State High Court judge or in a position equivalent to the post of Region or State High Court judge at least five years; or
(bb) have served in the post of judicial officer or law officer that is not lower than Region or State level for at least 10 years; or
(cc) have practiced law as the advocate for at least 20 years; or
(dd) are deemed to be celebrities with
prestige by the President.
(4) are well-experienced with good characters.
(5) comply with provisions, with which they have no right to stand for election as Pyithu Hluttaw members.
(6) are loyal to the State and the people.
(7) are not members of a political party.
(8) are not Hluttaw members.
(9) do not accept any other positions from which they can enjoy salaries and allowances.” should be adopted as detailed basic principles.

Mr Chairman,

It is perceived that the Pyidaungsu Election Commission plays an important role in the drive for the emergence of genuine multi-party democracy system with flourishing discipline.

The Commission will have to discharge these functions and to discharge the tasks prescribed in the election laws in addition to the original duties stipulated in the provisions of the State constitution. It also has to carry out the tasks assigned to it under the laws promulgated by the Pyidaungsu Hluttaw.

So, a point “discharging duties assigned under a law” should be prescribed in the duties of the Election Commission. Therefore, regarding designation of duties of the Pyidaungsu Election Commission, the points:

“Duties of the Pyidaungsu Election Commission are as follows:

(a) holding Pyithu elections;
(b) supervising Pyithu elections, and forming and supervising sub-commissions at all levels;
(c) designating and arranging constituencies;
(d) making and arranging lists of voters;
(e) putting off elections that are not in a position to be held in a free and fair way in some constituencies due to natural disasters or local security;
(f) issuing necessary laws on election and political parties in accord with the provisions of this Constitution and procedures and directives in accord with the laws concerned;
(g) forming electoral benches to resolve electoral disputes;
(h) discharging duties assigned under a law.” should be adopted as detailed basic principles.

Mr Chairman,

A member of any organization to be formed under the future Constitution can be blamed and charged for any of the following reasons:

(1) reason;
(2) violation of any provision of the Constitution;
(3) misbehaviour;
(4) lack of qualifications set by the Constitution for a Hluttaw member;
(5) incompetent discharge of duties.

Therefore, regarding the matters on blaming and charging the chairman or a member of the Pyidaungsu Election Commission, the point:

“If the President has to blame and charge the chairman or a member of the Pyidaungsu Election Commission, he shall do so in accord with the provisions prescribed in this Constitution on blaming the Union Chief Justice or any of Union Supreme Court judges.” should be adopted as a detailed basic principle.

Mr Chairman,

Regarding resignation, a vacant seat or of retiring from civil service of a member of the Pyidaungsu Election Commission, the points:

(a) “If the chairman or a member of the Pyidaungsu Election Commission in service wishes to resign or of his own accord due to his health condition or any other reasons, he may submit his resignation to the President”. That is, if the chairperson or a member of the Pyidaungsu Election Commission wishes to resign.

(b) “If the seat of the chairman or a member of the Pyidaungsu Election Commission is vacant due to resignation, termination of responsibilities, death, or any of other reasons, the President may appoint a new chairperson or a member of the Pyidaungsu Election Commission in accord with the provisions on appointment of a Union minister enumerated in the State Constitution.” (See page 6)
Mr Chairman, the Pyidaungsu Hluttaw representative.

Mr Chairman, the Pyidaungsu Election Commission, the point:

“The Pyidaungsu Election Commission’s action and measures over the following matters shall be final:

(a) electoral procedures;
(b) appeals and amendments on electoral banches’ decisions and orders;
(c) matters taken under political party law.” should be adopted as a detailed basic principle.

Mr Chairman, a detailed basic principle should be adopted to refer to responsibilities, powers and rights of the chairman and members of the Pyidaungsu Election Commission in prescribing laws to designate their responsibilities, powers and rights. That matter should be prescribed in a separate law instead of adopting it as a detailed basic principle in the State Constitution.

Therefore, regarding the designation of responsibilities, powers and rights of the chairman and members of the Pyidaungsu Election Commission, the points:

“Responsibilities, powers and rights of the chairman and members of the Pyidaungsu Election Commission shall be prescribed by law.” should be adopted as detailed basic principles.

Mr Chairman, if there is no explanation about the stay of national people who went abroad for further study with the permission of the government, on business or on personal affairs, disputes may arise in future. Now, the nation is practising the market-oriented economic system. Therefore, many nationals are staying in foreign countries on duty with the permission of the government. Hence, there are limitations in the number of parliament will not be easy. And there cannot be a stable situation, it is necessary for the President to declare a state of emergency in order to save the nation the elections. Therefore, the period of staying abroad with the permission of the government shall be deemed to have settled in the Union.

The ineffectiveness of the administrative machinery will lead to jeopardizing the community peace and the rule of law. In such situation, it is specially necessary for the President of the State to be empowered to exercise executive power to restore the rule of law and the community peace. The power to do so should be vested in an organization formed with suitable persons of the respective regions or a suitable person to carry out the task on behalf of the President. The following point should be adopted as detailed basic principles the political parties should keep.

1. Political parties set the objective — non-disintegration of the Union, non-disintegration of national solidarity and perpetuation of sovereignty.

2. A political party shall:
(a) accept and practise discipline-flourishing genuine multiparty democracy.
(b) abide by the Constitution and the existing laws.
(c) be legally registered as a political party.
(d) not form a single-party state.
(e) include various political organizations.
(f) cooperate with the opposition for the benefit of the state.
(g) refrain from violence and disorganization.

3. In accord with the law, a political party shall have the right to:
(a) join and participate in the election.
(b) to stand for the elections.
(c) to be legally registered as a political party.
(d) to form a single-party state.
(e) to be included as a political organization.
(f) to cooperate with the opposition for the benefit of the state.
(g) to refrain from violence and disorganization.

4. The continued existence of a political party shall not be permitted if
(a) it has been declared as an unlawful organization in accord with the existing law;
(b) it makes connections with or provides assistance to insurgent groups waging an armed rebellion against the State, organizations or persons the State has announced as the ones committing terrorist acts or organizations the State has declared unlawful;
(c) it directly or indirectly receives financial, material and other assistance from the government or a religious organization, or any other organization or an individual person of a foreign country;
(d) it abuses religion for political purpose.

5. If the body having the authority to register political parties finds that a political party is connected with any one of the political parties stated in the above-mentioned subparagraphs (a), (b), (c) or (d), the party’s registration shall be revoked.

The Pyidaungsu Hluttaw shall enact necessary laws concerning the political parties.

*2. In the matters concerning the declaration of a state of emergency in accord with the paragraph 1, the President shall have the power to:

(a) exercise the executive power of the Region or State or Self-Administered Area concerned. Moreover, he shall form a suitable organization and entrust the executive power to an organization concerned, or to a suitable person.

(b) In doing so, out of the legislative matters of the respective Regions and States and the Self-Administered Areas, the President shall have the power to exercise the legislative power concerning the executive affairs. But the legislative power shall not be entrusted to any organization or any person.*

Mr Chairman,

Persons taking advantage of the ineffectiveness of the administrative machinery may harm public lives and plunder of their property. In this situation, the President will have to declare a state of emergency after consulting with the National Defence and Security Council. But if not all the members of the National Defence and Security Council are present at the meeting with the President, he should declare a state of emergency after making coordination with the Commander-in-Chief of Defence Services, the Minister of Defence and the Minister of Home Affairs, who are the NSDC members. We are in favour of adopting the following detailed basic principle.

"3(a) when there arises or there is sufficient reason to occur a state of emergency endangering life and property of the people in a Region or a State or a Self-Administered Area or in any part of the Union, the President, after coordination with the National Defence and Security Council may issue an order having the force of the law to declare a state of emergency.

(b) If not all the members of the National Defence and Security Council can attend the meeting in which the President consults with the National Defence and Security Council as prescribed in the above paragraph (a), the President, may after coordinating with the Commander-in-Chief of the Defence Services, the Deputy Commander-in-Chief of the Defence Services, the Minister of Defence and the Minister of Home Affairs who are the members, declare a state of emergency in time.

The declaration shall be submitted to the National Defence and Security Council for approval.*

Mr Chairman,

There are many examples in which a nation has to take the assistance of the Armed Forces in a state of emergency. It is necessary for the President to issue a martial law if a state of emergency he has declared is not effective as it should be.

*4. In connection with the declaration of a state of emergency in accord with the paragraph 3, the President shall:

(a) take the assistance of the Tatmadaw to ensure local administrative bodies and members, and civil bodies and members to effectively carry out their functions in accord with the existing laws in order to swiftly restore the situation of an area where a state of emergency has been declared.

(b) issue martial law order. In doing so, the President shall prescribe in the martial law order the administrative powers and functions and judicial powers and functions concerning community peace and the rule of law entrusted to the Commander-in-Chief of Defence Services. The Commander-in-Chief of Defence Services shall exercise the powers and functions himself or empower them to a suitable military officers.*

Mr Chairman,

The ordinance issued by the President should include the fixed time and the specific area. If the President declares a state of emergency, the people of the inclusive area cannot enjoy all the rights ensured by the Constitution. It will be difficult to differentiate between the good and the bad during the time efforts are being made to restore stability, regional peace and the rule of law because of the unrest ruled by anarchy. Hence, a provision or more than one provision concerning the fundamental rights of citizens should be restricted during the time.

"5. The President when issues an ordinance having the force of law and declares a state of emergency, shall:

(a) specify the area covered by the ordinance and the duration.

(b) if necessary, restrict or revoke one or more provisions of the fundamental rights of the citizens residing in the area affected by a state of emergency declaration.*

Mr Chairman,

The President should submit the ordinance to the nearest session of the Pyidaungsu Hluttaw or should call the Pyidaungsu Hluttaw if it is not in session for approval. Hence, we support the adoption of the following detailed basic principle.

"6. The President from the date of the promulgation shall present the measures taken in accord with the paragraphs 1 and 2 and the measures taken in accord with the paragraphs 3 and 4:

(a) to the nearest Pyidaungsu Hluttaw session within 60 days for approval.

(b) shall cause to convene a special session of the Pyidaungsu Hluttaw for approval, if the Pyidaungsu Hluttaw has not any schedule to hold a session within 60 days.*

Mr Chairman,

The power to issue an ordinance is vested in the President in accord with the rules. The following detailed basic principle should be laid down concerning the ordinance issued by the President to be in force with the approval of the Pyidaungsu Hluttaw till the required date and the ordinance that will cease to have effect from the date on which it is disapproved by the Pyidaungsu Hluttaw.

"7. (a) If the Pyidaungsu Hluttaw session approves the submission of the President concerning the matters prescribed in the paragraph 6, the ordinance having the force of law shall be still in force till the fixed time and date.

(b) In addition to the approval, if the period of the ordinance is extended, the ordinance having the force of law shall be still in force till the extended time and date.

(c) The ordinance shall cease to have effect from the date on which it is disapproved by the Pyidaungsu Hluttaw session.*

Mr Chairman,

If there arises a situation heading for the disintegration of national solidarity and loss of national sovereignty, due to take over of sovereign State power or attempts by wrongful forcible means such as insurgency or violence, the President should declare a state of emergency. Concerning the matter, the following detailed basic principles should be adopted.

*8. When arises or there is sufficient reason to arise a state of emergency that may cause disintegration of the Union, disintegration of national solidarity and loss of national sovereignty, due to take over of sovereign State power or attempts by wrongful forcible means such as insurgency or violence, the President after consultation with the National Defence and Security Council shall proclaim an ordinance and shall declare a state of emergency. The proclamation shall stipulate that the area that the ordinance is in force is the entire nation and that its duration is one year from the date it is proclaimed.*

Mr Chairman,

When the President transfers the State power to the Commander-in-Chief of Defence Services, the latter will have to enact necessary laws. The President should cease the power to enact laws of those Hluttaw at the time when the President has empowered the Commander-in-Chief of Defence Services to exercise the State power. Hence, we are in favour of adopting the following detailed basic principle.

*9(a) In declaring a state of emergency under paragraph 8, the President shall declare the transfer of legislative, executive and judicial powers to the Commander-in-Chief of Defence Services to enable the latter to take necessary measures in order to restore the nation to normalcy. It shall be determined at the Pyidaungsu Hluttaw that the Ordinance and legislature bodies beginning from the date of declaration shall cease all their legislative functions. It shall be also deemed that when the term of the respective Hluttaw ended they are automatically dissolved.

(b) Notwithstanding anything contained in the Constitution, all the members of the organizations and members of the leadership bodies of the Self-Administered Zones, except from the President and Vice-Presidents, assigned with the approval of the Hluttaw in accord with the Constitution are terminated from their duties beginning from the date the State power is transferred to the Commander-in-Chief of Defence Services.*

Mr Chairman,

There should be a detailed basic principle saying that the Commander-in-Chief of the Defence Services can empower a suitable organization or a person to exercise the three organs of the State power on his behalf. The following detailed basic principle should be adopted.

*10. The Commander-in-Chief of Defence Services who has been transferred the State power shall have the power to exercise the legislative, executive and judicial powers. The Commander-in-Chief of Defence Services shall exercise the legislative power by himself or shall form an organization with his own participation to exercise the legislative power. He shall empower a suitable organization or a suitable person to exercise the executive and judicial powers.*

Mr Chairman,

The Commander-in-Chief of Defence Services, as he is going to exercise to the best of his ability to restore national peace and stability and safeguard sovereignty can have the power to restrict a provision or provisions concerning the fundamental rights of citizens. Thus, the following detailed basic principle should be adopted.

*11. The Commander-in-Chief of Defence Services during the declaration of a state of emergency shall restrict or terminate a provision or more than one provision of the fundamental rights of citizens, as necessary.*

Mr Chairman,

If the Commander-in-Chief of Defence Services cannot complete the duties empowered to him by the President in the stipulated time, whether the President has the power to extend the period, and the length of time for extension should submit it to the Pyidaungsu Hluttaw.

*12. The President shall: *(See page 8)
Electorate concerned should...

(from page 7)

"(a) proclaim a state of emergency according to the paragraphs 8 and 9 and shall submit the matter concerning the transfer of State power to the Commander-in-Chief of Defence Services to the Pyidaungsu Hluttaw if the Pyidaungsu Hluttaw is in session, and shall convene an emergency session of the Pyidaungsu Hluttaw if it is not in session to submit the matter,

(b) normally extend the period to six months at a time for two terms if the Commander-in-Chief of Defence Services presents a submission giving reasonable fact to him to extend the period if the Commander-in-Chief of Defence Services has not yet accomplished his duties assigned to him. Concerning the matter, the Pyidaungsu Hluttaw emergency session shall be called."

Mr Chairman,

The Commander-in-Chief of Defence Services after accomplishing the functions empowered to him by the President should forward a report concerning his accomplished tasks to the President. The President after receiving the report giving the reasons for transferring State power to the Commander-in-Chief of Defence Services shall normally extend the period to six months at a time for two terms if the Commander-in-Chief of Defence Services has not yet accomplished his duties assigned to him. Concerning the matter, the Pyidaungsu Hluttaw emergency session shall be called."

Mr Chairman,

The President after annulling the order to empower the Commander-in-Chief of Defence Services to exercise State power shall hold a general election in accord with the provisions of the Constitution after the general election beginning from the date on which the order is annulled in accord with the paragraph 17."

Mr Chairman,

To run the State administrative machinery normally, the NDSC will form the bodies included in the paragraph 19 and assign duties to them. In accord with the matter, the following detailed basic principle should be adopted.

"21. The bodies formed according to the paragraphs 19 and 20 shall continue to carry out their functions till legislative, executive and judicial bodies have been formed according to the Constitution after the general election."

Mr Chairman,

The NDSC should exercise the sovereign power of the State on behalf of the President.

The President after annulling the order to empower the Commander-in-Chief of Defence Services to exercise State power will have to hold a general election during the fixed period beginning from the date he abrogates the order. The President should form the National Defence and Security Council and should empower it to exercise the State power during the interim period when the new President has not been elected yet. The legislative, executive and judicial sectors of the State will be able to run as usual only if the NDSC heads the nation during the interim period. Hence, the following point should be adopted.

Ford lags behind Toyota in US sales

LOS ANGELES, 4 Dec—Ford Motor Co again trailed Toyota in sales at the US market, indicating its failure to seek recovery, a report said on Saturday.

The US automaker’s sales unexpectedly declined in November, as did its market share, according to figures published by the Los Angeles Times.

This was a step backward for Ford on its road to recovery, that allowed Toyota Motor Corp to once again overtake the venerable US automaker.

Ford sold 166,196 vehicles last month, a 10.6-per-cent decline from a year earlier, as sales of both cars and trucks fell, although analysts were expecting a gain of 2 to 3 per cent.

Toyota, buoyed by strong sales of its Corolla compact, RAV4 small sport utility vehicle and Lexus luxury cars, sold 196,695 vehicles, a 15.9-per-cent improvement from last November and in line with estimates.

It was the third time this year that a surging Toyota has bested Ford in the monthly sales standings, and further lays the groundwork for the Japanese automaker to decisively supplant its Michigan rival as the No. 2 car company in the United States, said the report.

Meanwhile, Ford’s share of the US new-vehicle market fell to 13.9 per cent in November from 15.9 per cent a year earlier, while Toyota’s share jumped to 16.4 per cent, according to the report.—MNA/Xinhua

A chartered helicopter carrying supplies for NATO troops got lost when flying from the Kandahar airfield in the southern Kandahar Province to Tirin Kot, capital of the neighbouring Uruzgan Province, Major Luke Knittig told Xinhua.

Afghan authorities and NATO troops had tried but failed to find the helicopter due to bad weather, he said, adding there were no NATO soldiers aboard.

Many regions of Afghanistan have witnessed snow on Saturday, which may be the reason for the aircraft’s missing.

Knittig did not say the number of people on board and the type of the helicopter as he said it was the helicopter’s owner that should release the information.—MNA/Xinhua

Malaysia discovers ancient wall in Malacca Tower site

KUALA LUMPUR, 5 Dec—The planned Malacca Tower will most likely be relocated following the discovery of an ancient wall on its project site, a local newspaper reported on Monday.

Work on the project has been ordered to stop following the discovery of an ancient wall, which is part of Malacca Fort, built after the Portuguese captured Malacca in 1511.

The relocation will be enforced under the Heritage Act 2005 which prevents any modern project to be implemented without taking into account historic and heritage findings, the New Straits Times reported.

“This is an historic finding, which will bring immense benefits to Malacca and the country,” anelated Culture, Arts and Heritage Minister Rais Yatim was quoted as saying.

The ministry and the state government will conduct an in-depth study on the wall, which will help determine the exact size of the fort, Rais said on Sunday in Malacca.

Rais said he would also seek the cabinet approval for funds to conduct a comprehensive study on the Malacca Fort, with the view of reconstructing some of the vital portions of the structure.

The planned 110-metre-high observatory tower, worth 21 million ringgit (5.67 million US dollars), is expected to be the newest tourism landmark in the historical state.

Vietnam’s computer, electronics export surges in 11 months

HANOI, 5 Dec—Vietnam earned over 1.6 billion US dollars from exporting computers and electronics appliances in the first 11 months of this year, up 22.7 per cent over the same period last year.

Many of the products were exported to Thailand, Japan, the United States and the Philippines, according to the Vietnam Electronic Industries Association on Monday.

“We reaped nearly 1.5 billion dollars from exporting electronics goods, including computers, in 2005. By penetrating deeply into both traditional and new markets, including Japan, some Southeast Asian countries, China, South Korea and France, we can make export turnover of two billion dollars this year,” said the association’s general secretary Tran Quang Hung.

To gain bigger export revenues and maintain domestic market shares under pressure of regional tariff reduction roadmaps, electronics producers in Vietnam, many of them are making electronics appliances under outsourcing contracts with foreign firms, should increase the added value in their products, which currently stands at only 10-15 per cent, he said.

**World champion Cheng wins vault title at Asiad**

DOHA, 6 Dec— Two-time world champion Cheng Fei collected 15.387 points to beat North Korean duo to notch the vault gold at Doha Asian Games on Tuesday.

Cheng Fei entered the women's vault final as the most decorated competitor on this apparatus. Cheng's challenge came from North Korean Hong Su Jong and Hong Un Jong, who have been consistent in 2006 and finished second and third with 15.237 and 14.962 points respectively.

Cheng's first vault earned her only 15.175 points, lower than Hong Su Jong's 15.500, but the world champion just made the gap up by scoring 15.600 points with her signature action against Hong's 14.975 to pocket the gold medal.

Cheng is dynamite on the vault, attacking the apparatus with the speed and power needed to get height and distance from the horse. She won the last consecutive world titles with her signature vault, the Cheng Fei vault, which requires superb twisting to land successfully.

Cheng was consistent on vault during qualification earning 15, 500 and 15,000 for her two attempts, but will be looking to push above 16,000 to continue her domination on this apparatus.

Cheng has dominated the World Circuit cup, winning two golds and two bronzes in the 2005-06 season.
