“We are observing, with concern, the unfolding events in Myanmar. It is not to the advantage of any of the parties to allow the situation to deteriorate further. In this context, we view the visit of the UN Secretary-General’s Special Envoy Ibrahim Gambari as important. We hope that as a result of the deliberations during this visit, calm could be restored. We also hope that the initiatives of the Secretary-General will pave the way for sustainable resolution of the issues involved. As a friendly neighbour, Bangladesh wishes to see a peaceful, stable and prosperous Myanmar, and will contribute to that end constructively and in every possible way.”
