Georgia ‘pulls out of S Ossetia’

TSKHINVALI, 10 Aug— Georgia has said its troops have pulled out of the breakaway region of South Ossetia and that Russian forces are in control of its capital, Tskhinvali.

But Russia said that while heavy artillery had been seen leaving the territory, Georgian troops were still present in other areas of the region.

Meanwhile, Russian warships have deployed near ports along the Georgian Black Sea coast,

including Poti, where Georgian wheat and fuel shipments are being blocked. Russia insists there are no plans to stop oil exports, but says it reserves the right to search

any ships.

In response, Ukraine has threatened to block the return of Russian warships to their Black Sea base at Sevastopol saying it does not want to be “drawn into a military conflict”.

Georgia says an additional 10,000 Russian soldiers have crossed into South Ossetia and Abkhazia. The separatist authorities in Abkhazia have announced full military mobilization.

UN chief urges peaceful settlement to conflict in Georgia

UNITED NATIONS, 10 Aug — UN Secretary-General Ban Ki-moon on Saturday called on the warring parties in Georgia to immediately end hostilities and seek a peaceful settlement to the conflict.

“The Secretary-General urges all parties to immediately end hostilities and to engage, without delay, in negotiations to achieve a peaceful settlement,” Ban’s Press office said in a statement issued late Saturday.

“The Secretary-General is alarmed by the escalation

of hostilities in Georgia which have resulted in large numbers of casualties and massive destruction in South Ossetia and other regions of Georgia,” the statement said.

In particular, the Secretary-General expressed concern about “violence spreading to areas outside the zone of the Georgian-Ossetian conflict,” it said. Ban is “profoundly concerned over mounting tensions in the Abkhaz zone of conflict, including the bombing of the Upper Kodori Valley

and the ongoing military build-up along the security zone,” it noted.

The Secretary-General “welcomes international efforts to assist the parties in resolving the situation” and “strongly believes that a lasting solution can only be found by peaceful means,” it added. Airline industry woes threaten O’Hare expansion

CHICAGO, 10 Aug — Soaring gas prices have claimed plenty of victims — from SUV sales to stock market portfolios.

They now threaten to claim another: the expansion of one of the world’s busiest airports.

Chicago wants to complete the expansion of O’Hare International Airport, which relies heavily on revenue from cash-strapped airlines, by 2014 — two years before it hopes to host the Summer Olympics.

But carriers serving Chicago now appear reluctant to put up more money to finish the job because high fuel costs have cut so deeply into industry revenue, forcing airlines to raise fares, slash flights and lay off workers. Chicago officials say the expansion project is critical, and not just for the city and state economy.

New runways and a new terminal envisioned in the project, they say, will greatly reduce delays that now gum up air traffic nationwide. Critics have

Russia takes South Ossetian capital

TSKHINVALI (Georgia), 10 Aug — Russian troops and tanks took the capital of the separatist Georgian region of South Ossetia on Sunday after a bloody three-day battle as Georgian forces retreated and offered a ceasefire.

Israeli Army arrests 4 Palestinians on Gaza border

GAZA, 10 Aug — Israeli forces arrested four Palestinians at the security fence with Gaza, Palestinian security sources said Sunday.

However, witnesses and Israeli media reported that the Palestinians have surrendered to the Israeli forces as they were waving white banners when they were heading for Kissufim crossing in

The Israeli Army said the four men were taken for interrogation.

The Palestinian security sources said the four men were apparently fleeing the Gaza Strip for fears of being targeted by Hamas, which controls the territory since last summer.

When Hamas routed Fatah’s security forces,

which are headed by Palestinian President Mahmoud Abbas, many of Fatah supporters fled towards Israel to avoid Hamas revenge.

The same thing occurred last week when Hamas renewed a crackdown against Fatah in Gaza following a beachside blast that killed five Hamas members.

Brazil teen loses right hand in shark attack

A shark ripped off the right hand of a teenager swimming along the coast of northeastern Brazil, fire department officials said Monday.

Lifeguards rescued dos Santos and rushed him to a hospital, where he was reported to be in critical but stable condition, Maia said. Besides severing dos Santos’ hand, the shark “bit off a large chunk of his buttocks,” Maia said.

“People insist on ignoring the sign posts warning of the danger of shark attacks, especially beyond the coral reefs about 150 meters (490 feet) from the beach,” Maia said.

Lost Aussie prospector eats termites to survive

A former pest exterminator lost in the remote Australian Outback and desperate for food survived by eating termites and other insects for four days before being found Tuesday by local Aborigines.

A weary-looking Theo Rosmulder told reporters that he found some relief from hunger at a giant termite mound.

“I just hit the top of the termite nest off and got stuck into them,” Rosmulder said at a news conference in the southwestern Australian mining town of Laverton. “Termites don’t taste too bad.” Rosmulder, 52, was suffering from dehydration but otherwise in

Sadr to disarm if US withdraws on timetable

BAGHDAD, 10 Aug — Anti-American Iraqi Shiite cleric Moqtada al-Sadr would dissolve his Mehdi Army militia if the United States started withdrawing troops according to a set timetable, a spokesman said. A car bomb in the northern town of Tal Afar killed 21 people and wounded 72, police said, an attack that demonstrated

the potential for violence that persists in a country that has become far more peaceful over the past year.

Police said the bomb struck a crowded vegetable market. The town is near the city of Mosul, in an area where US-backed Iraqi forces have launched a crackdown on al-Qaeda Sunni Arab militants in recent months.

US forces said 15 people were killed and 50 wounded. Sadr's decision to link disarming his militia to a US withdrawal comes at a crucial point in talks between Baghdad and Washington over a security pact to provide a legal basis for US troops in Iraq when a UN mandate expires at the end of the year.

Lawyers for Guantanamo inmate sue Canadian PM

OTTAWA, 10 Aug — Lawyers for a young Canadian man imprisoned at Guantanamo Bay filed a lawsuit on Friday against Prime Minister Stephen Harper in a bid to force him to intercede with Washington on the inmate's behalf.

Harper has so far refused to ask the United States to repatriate 21-year-old Omar Khadr, who is due to go on trial in October on charges of killing a US soldier in Afghanistan in July 2002, when he was 15.

Critics say Khadr was a child soldier and should be helped rather than punished. Harper, whose right-wing Conservatives won power in January 2006 on a law-and-order platform, says the man is facing serious charges. — MNA/Reuters

Fergie - Real made one Ron bid
United boss reveals official approach from Spanish giants

LONDON, 10 Aug--Sir Alex Ferguson has revealed that Real Madrid did make one official bid for Cristiano Ronaldo this summer.

The future of the Manchester United star has dominated the headlines since the end of last season, but he has finally pledged to remain at Old Trafford for at least one more campaign.

Real made no secret of their desire to bring the Portugal international to Spain with a series of public statements from various members of the club's hierarchy, but never confirmed a bid had been lodged.

The Red Devils have always steadfastly refused to budge from their long-held position that Ronaldo is not for sale and would

be remaining in the Barclays Premier League.

United boss Ferguson insists the decision that their star man would not be leaving was taken at the start of the whole saga, and admitted that Real have made no attempts to make peace following the long-running battle for Ronaldo's services.

Inler's agent in Wenger talks

LONDON, 10 Aug — Gokhan Inler's agent claims he has held 'very positive' talks with Arsenal manager Arsene Wenger.

Udinese midfielder Inler has been strongly linked with a move to Emirates Stadium as Wenger looks for one more signing.

Wenger is keen to increase his options in midfield after seeing Mathieu Flamini, Gilberto Silva and Alexander Hleb leave the club over the summer. Inler has been mooted as Wenger's top target, with the Switzerland international's agent Dino Lamberti recently stating he was due to meet Wenger.

According to Lamberti, the discussion has taken place and he is now awaiting a decision on whether

Gokhan Inler

Arsenal will firm up their interest.

"It is true to say that I have had a meeting with Arsene Wenger," Lamberti told Swiss newspaper *Blick*.

"We have already had a very positive discussion."

Reports have claimed that Arsenal are prepared to make Inler the most expensive footballer in Swiss history by paying 15million euros (£11.7million).

LONDON, 10 Aug — Newcastle are closing in on the signing of Argentine defender Fabricio Coloccini.

Coloccini watched Newcastle's 2-1 win over Valencia on Saturday after Newcastle agreed a fee with Deportivo for the big central defender earlier this week.

Magpies owner Mike Ashley sported the name of Coloccini on the back of his shirt during the game with Valencia to signal that a move is close to completion.

Coloccini would join Danny Guthrie and Jonas Gutierrez as Newcastle's summer signings if he seals the move.

Magpies boss Kevin Keegan refused to confirm if a deal was close but is hoping to add at least a couple of more signings before the close of the transfer window.

"Yes I would like to think once that [Coloccini's deal] is completed then there will be two more and then we will see what happens," said Keegan

"I think there will be lots of comings and goings late on as clubs try to rebalance and somebody will become available who will be of interest and I think we will be in there pitching like anybody else." — Internet

Rangers start season with narrow win at Falkirk

GLASGOW, 10 Aug — Lithuanian striker Andrius Velicka scored the only goal as Rangers scraped a 1-0 win at Falkirk in the opening fixture of the new Scottish Premier League season on Saturday.

Rangers, who made a shock exit from the Champions League qualifiers on Tuesday, struggled for long periods and survived a second-half Falkirk penalty when Michael Higdon's 50th minute spot-kick was turned away by keeper Allan McGregor.

Rangers failed to break down the Falkirk defence in the first half and had a real scare when McGregor sliced an attempted clearance across the face of his own goal in the 25th minute from Kirk Broadfoot's pass back.

Striker Kris Boyd nearly put Rangers ahead from point-blank range before the break, but Velicka made no mistake with a 63rd minute tap-in at the far post from Kyle Lafferty's low cross. — MNA/Reuters

Parry defends Barry stance

LONDON, 10 Aug -- Liverpool chief executive Rick Parry insists the club's American owners are not questioning Rafa Benitez's judgement in the

that the situation was 'not a question of money'.

However, there have been reports that Liverpool owners George Gillett and Tom Hicks are unwilling to spend £18million on the England international.

Parry is adamant the owners will back Benitez in the transfer market, but has stated the price being quoted for Barry is 'too high'.

"There has been a lot of comment today regarding our position with regards to Gareth Barry," Parry told the club's official website.

"This is not about questioning the manager's judgement or the ability of a particular player.

"The owners have clearly demonstrated throughout the year they are willing to back Rafa in the transfer market and will continue to do so.

Internet programme helps diabetics monitor sugar

NEW YORK, 10 Aug — An Internet-based blood-sugar monitoring programme appears to help people with type 1 diabetes better manage their condition, researchers report.

Type 1 diabetes, also known as insulin-dependent diabetes, usually strikes people in their teens and twenties, and requires regular insulin injections and close monitoring of blood sugar, or glucose.

For the new study, researchers looked at whether an online

programme in “blood glucose awareness training” could help type 1 diabetics better manage the disease.

The programme, dubbed BGAThome, is an adaptation of well-studied programme that uses group sessions to teach diabetics tactics for predicting and preventing blood sugar ups-and-downs—such as keeping daily diaries on glucose levels and recording symptoms associated with sugar lows.

Hu meets Putin, proposing further cooperation

BEIJING, 10 Aug — Chinese President Hu Jintao met on Saturday with Russian Prime Minister Vladimir Vladimirovich Putin and proposed further bilateral and multilateral cooperation in diverse fields to achieve common development.

“China and Russia are forging ahead with the partnership of strategic cooperation toward their established goals, and the development of both countries are faced with opportunities and challenges at the same time,” Hu said.

The two countries should further enhance strategic cooperation in three aspects, Hu proposed.

First, the two countries should continue to jointly promote global multipolarization and democracy in international relations, and establish a fair and reasonable international political and economic new order.

Second, China and Russia should enhance political cooperation and cement multilateral cooperation.

Third, the two countries should seek mutual benefits and a win-win outcome, and work together for common development.—MNA/Xinhua

India, ASEAN sort out differences over FTA

NEW DELHI, 10 Aug —

India and South Asian trading block ASEAN have finally concluded talks on a free trade agreement (FTA), sorting out long-standing differences over proposed tariff cuts in sensitive farm products such as palm oil, the Economic Times website reported Saturday.

The India-ASEAN trade negotiations committee, which met in Brunei this week, managed to resolve pending issues and sealed the deal, which would result in tariff elimination on four-fifths of all traded commodities in a phased manner over the next 10 years.

Trade ministers from the 10 ASEAN countries and India will meet later

this month to formally approve FTA, following which the legal framework for the deal will be drafted. The agreement will be signed by heads of states during the next ASEAN summit in December in Bangkok.

The FTA with India is ASEAN’s fourth with a dialogue partner, following Japan, China and South Korea.

Trade between India and ASEAN reached nearly 20 billion US dollars last year and is expected to grow to 30 billion dollars by 2010 and create an ASEAN Economic Community by 2015, the NDTV said.

Doctors fall short on heart disease prevention

NEW YORK, 10 Aug — Some doctors are not making the grade when it comes to helping their patients ward off heart disease, a new survey suggests.

The survey, of nearly 900 US primary care doctors, found that many do not follow practice guidelines on managing patients who are at elevated risk of heart and blood vessel disease. “Despite the benefits demonstrated for managing cardiovascular risks, gaps remain in primary care practitioners’ management of risks according to guideline recommendations,” conclude researchers in a report in the journal *BMC Family Practice*.

“Patients should talk to their physicians about setting goals together for reducing blood pressure and cholesterol and making a plan to achieve the goals,” lead researcher Dr Hamidreza Doroodchi, from Birmingham, Alabama-based Outcomes, Inc, noted in comments to *Reuters Health*. — MNA/Reuters
